The Office of Management and Budget has proposed to the United States Department of Health and Human Services a composite fringe benefit rate of 60.8 percent of base salaries for the year ending June 30, 2023. The rate is applicable to personnel who are members of the Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), Teachers' Alternate Benefit Plan (TABP), Defined Contribution Retirement Program (DCRP), and all employees who are not members of a pension plan, but are covered for health benefits. A fringe benefit rate of 111.5 percent has been proposed for the Police and Firemen. These proposed rates are to be used for all Non-State funded sources.

The State Police fringe benefit rate is 85.4 percent for Non-State funded programs. The PERS fringe benefit rate of 60.8 percent should be used for all State Police federally funded programs.

Actual charges to Federal, Dedicated, and Non-State funded programs will be reflected on the base salaries. **NOTE:** Salaries exclude overtime pay and part-time employees that are not members of a pension plan or not covered for health benefits.

Effective July 1, 2022, the rates shall be used by all State agencies including the State's senior public colleges and universities for estimating and computing actual charges for fringe benefit costs related to Federal, Dedicated, and Non-State programs. Rates previously established are obsolete.
