Independent Auditors' Report

The Board of Trustees
The College of New Jersey:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of The College of New Jersey (the College), a component unit of the State of New Jersey, as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the College's basic financial statements for the years then ended as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of the College as of June 30, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of The College of New Jersey Foundation, Inc. and the Trenton State College Corporation were not audited in accordance with *Government Auditing Standards*.

Emphasis of Matter

As discussed in note 2(m) to the financial statements, in 2022, the College adopted Government Accounting Standards Board Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis, the schedule of proportionate share of the net pension liability, schedule of employer contributions, and schedule of proportionate share of the total other postemployment benefits (OPEB) liability be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated March 8, 2023 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited)

Overview of Financial Statements and Financial Analysis

This Management's Discussion and Analysis (MD&A) section provides an analytical overview of the business-type activities of The College of New Jersey's (TCNJ or the College) financial performance during the fiscal years ended June 30, 2022 and 2021. The MD&A section is intended to help readers of the financial statements better understand the financial position and operating activities for the years ended June 30, 2022 and 2021, and includes selected comparative information for the year ended June 30, 2020. As an unaudited discussion prepared by management, the MD&A should be read in-conjunction with the basic financial statements that follow.

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), which establishes financial reporting standards for governments, including public colleges and universities. The College's significant accounting policies are summarized in note 2 to the financial statements of this report. Further information on the financial reporting entity can be found in note 1.

Because the financial statements of The College of New Jersey Foundation Inc. and Trenton State College Corporation, component units of TCNJ, are discretely presented from the College, the MD&A focuses only on the business-type activities of the College. Information relating to the component units can be found in their separately issued financial statements. In addition, the MD&A does not focus on the statements of fiduciary net position and statements of revenues, expenses and changes in fiduciary net position.

College Overview

The College of New Jersey is a midsized, comprehensive public college that concentrates primarily on the undergraduate experience. The College gives primacy to teaching and has an achievement-oriented and diverse student body.

Acknowledged for the quality of its academic offerings, the College has been ranked as one of the top comprehensive colleges in the country. In 2022 and 2021, *U.S. News & World Report* ranked TCNJ fifth overall and placed first among public colleges, in the "Best Regional Universities—North" category, third in the region for best undergraduate teaching programs and first in the regional ranking for best colleges for veterans. TCNJ also ranked fifth among all institutions in the region for the highest percentage of freshmen coming from the top 25 percent of their high school class (71 percent), and ranked third in actual six-year graduation rate (86 percent). Additionally, in 2020 *MONEY Magazine* ranked TCNJ third in the nation among similarly sized public institutions on its annual "Best Colleges in America for your Money" list. The *Princeton Review* named TCNJ one of the best 388 and 386 colleges in the nation in 2022 and 2021, respectively, a review based on student evaluations. The College remains a top contender in the search for affordable education, once again ranking among *Princeton Review's* "Best Value Colleges." The *Princeton Review* also recognized TCNJ as one of the most academically outstanding colleges in the Northeast and is featured in the publication's "Guide to Green Colleges," which rewards colleges for their outstanding commitment to environmental sustainability.

A strong liberal arts core forms the foundation for a wealth of degree programs offered through the College's seven schools. These schools include Arts and Communication; Business; Education; Humanities and Social Science; Science; Nursing and Health Sciences; and Engineering. The College is enriched by an honors program and extensive opportunities to study abroad; its freshman orientation programs have helped make its retention and graduation rates among the highest in the country.

Management's Discussion and Analysis (Unaudited)

The College is recognized as a public institution of higher education by the State of New Jersey and, accordingly, the State Legislature appropriates funds annually to support operations and the cost of fringe benefits for state authorized positions. Under the law, the College is an instrumentality of the State with a high degree of autonomy and is subject to all of the laws and regulations applying to the state public colleges.

Governance

The governing board of the College is a Board of Trustees comprised of no more than fifteen publicly appointed trustees, two students and the President of the College (ex-officio nonvoting). All citizen members are voting members, as is one of the two students. The Board also includes representatives from the staff and the faculty.

Under P.L. 1994, C. 48, the Board of Trustees is responsible for developing an institutional plan; determining academic programs; establishing administrative policies; borrowing money; awarding contracts; setting tuition and fees; granting degrees; appointing, evaluating and determining compensation of the president; appointing and promoting the faculty and staff; establishing admission standards and requirements and standards for granting diplomas, certificates and degrees; recommending members for appointments to the Board of Trustees by the Governor; having final authority to determine controversies and disputes pertaining to tenure and other personnel matters of employees; investing and reinvesting the funds of the College; retaining legal counsel of the College's choosing; and preparing and making public an annual financial statement.

Academic Profile

Faculty

Grounded in the liberal arts, TCNJ's personalized, collaborative, and rigorous education engages students at the highest level within and beyond the classroom. In fall 2021, the College's overall full-time equivalent (FTE) faculty count was 525. Approximately 70% of the total faculty FTE was full time (371) and the remaining 30% (154) included permanent part-time faculty, adjunct and teaching professional staff. During this same period, the total FTE student enrollment was 7,019 and the student to faculty ratio was 13:1. The College does not employ graduate teaching assistants, which increases faculty involvement in the curriculum and enriches student learning.

Faculty Data					
Academic Year	Full-Time Faculty	Part-Time Faculty*	Tenured Faculty	Faculty with Terminal Degrees	Student/Faculty Ratio
2019–2020	373	183	265	347	13:1
2020–2021	375	159	258	344	13:1
2021–2022	371	154	259	350	13:1

*Part-time includes permanent part-time faculty, adjunct and teaching professional staff full-time equivalents.

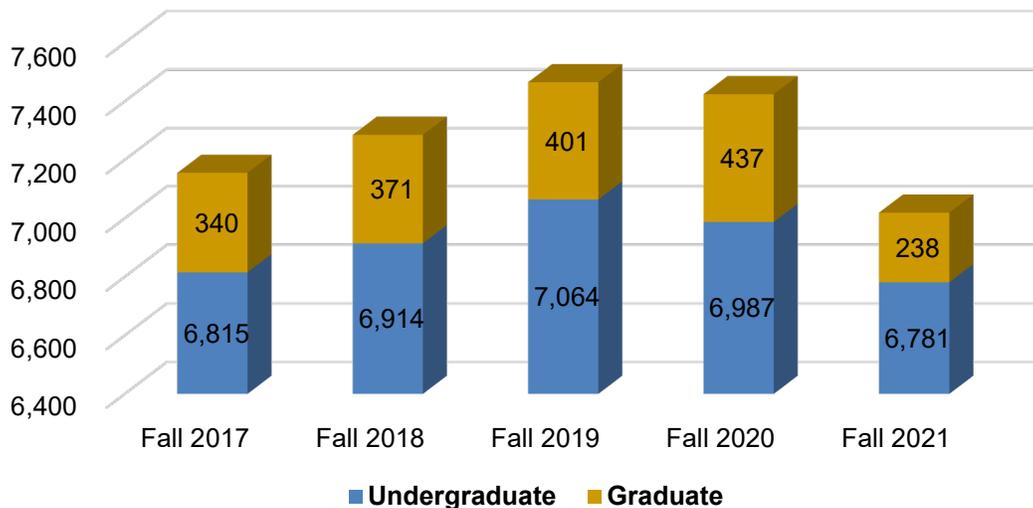

Management's Discussion and Analysis (Unaudited)

Students

The College enjoys a healthy student demand and continues to attract academically talented students. In fall 2020, the full-time freshmen class enrolled 1,428 students yielding a 21% matriculation ratio based upon a 51% acceptance ratio for 13,199 applicants. The 94% freshman to sophomore retention rate demonstrates a high level of student satisfaction. The level of academic engagement is reflected in the high four-year and six-year graduation rates for the 2014 first time freshman cohort of 75% and 87%, respectively. In fall 2021, 86% of the freshmen class and 46% of all undergraduate students lived on campus. The increase to students living on campus was due to a return to operations after the COVID-19 pandemic restrictions were lifted.

In fall 2021, TCNJ enrolled 6,781 full-time equivalent undergraduate students and 238 full-time equivalent graduate students. Over the last five years, TCNJ has targeted enrollment growth in line with its strategic enrollment plan goals, with the total full-time equivalent population shrinking by 136 from fall 2017 to fall 2021, with decreased enrollment rates in both undergraduate and graduate students.

Full-Time Equivalent Enrollment

The 2021–2022 academic year concluded with the awarding of 1,719 bachelor's degrees, 379 master's degrees, and 24 pre/post master's certifications.

Using the Financial Statements

The basic financial statements present the financial position, the changes in financial position and cash flows of the College, through three primary financial statements and notes to the financial statements. The three financial statements consist of the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. The notes to the financial statements provide additional information that is essential to a full understanding of the financial statements.

Management's Discussion and Analysis (Unaudited)

In fiscal year 2022, the College adopted GASB Statement No. 87, *Leases* (GASB 87). See note 2(m) regarding the effect of the adoption.

The College's net position is one indicator of the institution's financial health. Sustained increases or decreases in net position over time are indicators of the improvement or erosion of an institution's financial health when considered together with relevant nonfinancial factors such as enrollment levels, student retention and graduation rates and the condition of the facilities.

Significant Aspects of the Financial Statements

- Revenues and expenses are categorized as either operating or nonoperating. Significant recurring sources of the College's revenues, including state appropriations, OPEB revenue, and investment income, are considered nonoperating, as defined by GASB Statement No. 35, *Basic Financial Statements — and Management's Discussion and Analysis—for Public Colleges and Universities—an amendment of GASB Statement No. 34* (GASB 35). The net nonoperating revenue totaled \$49.5 million and \$79.8 million for the years ended June 30, 2022 and 2021, respectively.
- Scholarships applied to student accounts are shown as a reduction of student tuition and housing fee revenue. Tuition waivers are reported as a scholarship expense. For the years ended June 30, 2022 and 2021, respectively, scholarship allowance totaled \$33.9 million and \$31.1 million.
- The College is required to report depreciation on its capital assets. Depreciation expense totaled \$29.8 million and \$29.3 million, respectively, for the years ended June 30, 2022 and 2021.
- Unrestricted net position comprised various subcategories of designated and committed funds; however, GASB 35 prohibits a breakdown of these designations on the face of the statement of net position. The College has many activities that require a certain level of reserves to be maintained. Examples include working capital reserves for auxiliary operations, educational and general activities, coverage for debt service and capital reserves for planned construction efforts. Unrestricted net position is negative due to the College's proportionate share of pension amounts as required by GASB 68 which is discussed further below.

GASB Statements No. 68 and 75

The College accounts for pensions according to GASB Statement No. 68 (GASB 68), *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27* and GASB Statement No. 71 (GASB 71), *Pension Transition for Contributions made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68*. GASB 68 requires state and local government employers to recognize a net pension liability for defined benefit plans where the entity is a participant. The College pension plans impacted by GASB 68 and 71 are the State of New Jersey Public Employees' Retirement System (PERS), the State of New Jersey Police and Firemen's Retirement System (PFRS) and the State of New Jersey Teachers' Pension and Annuity Fund (TPAF).

The State provides the contributions to the plans while seeking reimbursement from the College for the College's non-State-authorized positions. The State provides an annual fringe benefit appropriation to the College based on a fully loaded fringe benefit appropriation. The College records the fringe benefit revenue (100% of the State-authorized positions) and expense (100% of State-authorized positions plus non-State-authorized positions

Management's Discussion and Analysis (Unaudited)

reimbursed to the State) in its financial statements. The State has communicated that the GASB 68 pension liability "allocations do not impact state laws or past funding arrangements that have been established annually in the State budget."

The College's proportion of the respective plans' net pension liability is based on the ratio of the employer contributions made related to the College's employees to the total contributions made by all participating State-group employers. The changes in net pension liability adjusted for the deferred inflows and deferred outflows of resources result in pension expense. The amounts recorded as a result of following GASB 68 have been shown separately in the tables below.

The College accounts for other postemployment benefits (OPEB) other than pensions according to GASB Statement No. 75 (GASB 75), *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The College's retirees participate in the State of New Jersey State Health Benefit State Retired Employees Plan (the Plan).

The State is legally obligated to pay the OPEB benefit coverage for eligible retirees of the College under N.J.S.A. 52:14-17.32. Since the College does not contribute directly to the Plan, there is no total OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the College's financial statements. The College's portion of the nonemployer contributing entity's total proportionate share of the total OPEB liability that is associated with the College is disclosed in note 12.

The College's financial statements relating to the reporting of OPEB under GASB 75 reflect its proportionate share, as determined by the DPB, of the State's OPEB expenses under the Plan. The College's proportionate share was calculated based on the ratio of the members (active and retired) of an individual employer to the total members of the Plan. In fiscal years 2022 and 2021, respectively, the College recognized \$2.8 million and \$5.0 million in OPEB expense and nonoperating OPEB revenue, to account for the College's portion of the OPEB expense that was paid by the State. The amounts recorded in the Statement of Revenues, Expenses and Changes in Net Position as a result of GASB 75 have been shown separately in the tables below.

Management's Discussion and Analysis (Unaudited)

The table below show the GASB 68 and GASB 75 adjustments to the financial statement for fiscal year 2022:

2022			
Condensed Statement of Net Position (Amounts in thousands)			
	Before GASB 68	GASB 68 Adjustment	As Reported
Assets:			
Current assets	\$ 113,742	—	113,742
Capital assets, net	626,922	—	626,922
Other noncurrent assets	50,648	—	50,648
Total assets	791,312	—	791,312
Deferred outflows of resources	45,840	67,448	113,288
Liabilities:			
Current liabilities	34,956	—	34,956
Noncurrent liabilities	361,912	134,920	496,832
Total liabilities	396,868	134,920	531,788
Deferred inflows of resources	17,707	92,595	110,302
Net position:

Restricted expendable	808	—	808
Unrestricted	151,594	(160,066)	(8,472)
Total net position	\$ 422,576	(160,066)	262,510

Management's Discussion and Analysis (Unaudited)

The table below show the GASB 68 and GASB 75 adjustments to the financial statement for fiscal year 2021:

2021			
Condensed Statement of Net Position (Amounts in thousands)			
	Before GASB 68	GASB 68 Adjustment	As Reported
Assets:			
Current assets	\$ 127,622	—	127,622
Capital assets, net	647,444	—	647,444
Other noncurrent assets	38,545	—	38,545
Total assets	813,611	—	813,611
Deferred outflows of resources	50,276	89,565	139,841
Liabilities:			
Current liabilities	31,724	—	31,724
Noncurrent liabilities	365,195	210,300	575,495
Total liabilities	396,919	210,300	607,219
Deferred inflows of resources	17,999	49,716	67,715
Net position:			
Net investment in capital assets	289,600	—	289,600
Restricted expendable	1,320	—	1,320
Unrestricted	158,048	(170,450)	(12,402)
Total net position	\$ 448,968	(170,450)	278,518

Under GASB 68, the College recorded its proportionate share of pension expense of \$1.1 million and \$26.3 million for fiscal years 2022 and 2021, respectively. In fiscal years 2022 and 2021, the State's contributions amounted to \$11.0 million and \$7.8 million, respectively.

Statement of Net Position

The statement of net position presents the College's financial position at the end of fiscal years 2022 and 2021, including all assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position using the accrual basis of accounting. Assets and liabilities are generally measured using current values with certain exceptions, such as capital assets which are stated at cost less accumulated depreciation, and long-term debt which is carried at cost.

Management's Discussion and Analysis (Unaudited)

Assets and liabilities are categorized as current and noncurrent and are shown in order of their relative liquidity. An asset's liquidity is determined by how readily it is expected to be converted to cash or whether restrictions limit the College's ability to use the resources. Current assets are generally considered to be convertible to cash within one year. Noncurrent assets are predominantly composed of long-term investments and capital assets (net) including right-to-use lease assets.

Deferred outflows of resources are a consumption of net position by the College that is applicable to a future reporting period. The College's deferred outflows of resources consist of bond deferred refunding amounts and changes in proportion of the allocated pension liability and differences in actuarial amounts used to calculate the pension liability.

A liability's liquidity is based on its maturity or when cash is expected to be used to liquidate it. Current liabilities are amounts becoming due and payable within the next year and consist primarily of accounts payable, accrued liabilities, and the portions of long-term lease obligations and bond principal due within a year. The College's net pension liability and long-term lease and other obligations and bonds payable comprise the majority of its noncurrent liabilities.

Deferred inflows of resources are an acquisition of net position by the College that is applicable to a future reporting period. The College's deferred inflows of resources is composed of changes in proportion of the allocated pension liability, and differences in actuarial amounts used to calculate the pension liability and future long-term lease revenue amortized in a systematic and rational manner over the lease term.

Net position represents the residual interest in the College's assets and deferred outflows of resources after all liabilities and deferred inflows are deducted. Net position is one indicator of the financial condition of the College, while the change in net position during the year is a measure of whether the overall condition has improved or worsened during the year.

Net position is classified into three major categories. The first category, net investment in capital assets, provides the College's equity in property, plant, and equipment. The second category is restricted expendable net position, which are available resources to the College but must be spent for purposes as determined by donors and/or external entities that have placed time or purpose restrictions on their usage.

Finally, unrestricted net position represents those balances from operational activities that have not been restricted by parties external to the College, such as donors or granting agencies. Also included are working capital balances maintained for departmental and auxiliary enterprise activities.

Management's Discussion and Analysis (Unaudited)

From the data presented, readers of the Statement of Net Position have the information to determine the assets available to continue the operations of the College. They may also determine how much the College owes external vendors, bond holders and other parties. A summary of the College's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position at June 30, 2022, 2021 and 2020 are as follows. Fiscal year 2022 includes the adoption of GASB 87 and fiscal year 2021 has been restated for the adoption. Fiscal year 2020 has not been restated for GASB 87.

Condensed Statements of Net Position (Amounts in thousands)			
	2022	2021	2020
Assets:			
Current assets	\$ 113,742	127,622	114,948

Total net position	\$ 262,510	278,518	292,238

Statement of Net Position Financial Highlights

Assets

During fiscal years 2022 and 2021, respectively, the College's total assets decreased by \$22.3 million and \$13.5 million, or 2.7% and 1.7% primarily due to depreciation of capital assets. At June 30, 2022 and 2021, respectively, the College's working capital, which is current assets less current liabilities, was \$78.8 million and \$95.9 million, a decrease of \$17.1 million and an increase in \$39.8 million from the previous year primarily due to investment depreciation and an increase in accounts payable and accrued expenses.

Management's Discussion and Analysis (Unaudited)

Working capital is a key financial metric used to measure the College's liquidity for operations. It measures the institution's ability to satisfy its current obligations as they come due. With current assets at \$113,742 and 3.25 times above current liabilities in fiscal years 2022, 2021 and 2020, respectively, the College had adequate liquidity to satisfy its current obligations.

Summary of Working Capital (Amounts in thousands)				
		2022	2021	2020
Current assets	\$	113,742	127,622	114,948
Current liabilities		34,956	31,724	58,879
Working capital		78,786	95,898	56,069
Ratio of current assets to current liabilities		3.25	4.02	1.95

Cash and Investments

The College's cash and cash equivalents and investments consisted of the following as of June 30, 2022, 2021 and 2020:

Cash and Cash Equivalents and Investments (Amounts in thousands)				
		2022	2021	2020
Cash and cash equivalents	\$	36,478	17,897	14,428
Investments – current		51,702	78,170	62,738
Investments – noncurrent		29,304	17,026	17,015
Total cash and cash equivalents and investments	\$	<u>117,484</u>	<u>113,093</u>	<u>94,181</u>

Cash and cash equivalents increased by \$18.6 million and \$3.5 million in fiscal years 2022 and 2021, respectively, primarily due to housing revenues reinstated to a full year in 2022 and the 2020D debt refinancing reducing the principal payments on long-term debt in 2022.

The College's investment portfolio has two components: a short duration fixed income segment, which holds high-quality liquid fixed income securities generally maturing between overnight and three years, and a longer-term multi-asset class segment, which employs a more diversified approach focused on global investments.

The investment portfolio produced mixed results for the fiscal years ended June 30, 2022 and 2021. The combined portfolio generated a loss of \$13.4 million or 17.6% in fiscal year 2022 compared to a gain of \$15.4 million or 19.5% in fiscal year 2021. This was the result of a decline in the market value of the portfolio in fiscal year 2022. The College's strategic investment continues in a long-term, diversified, multi-asset class

Management's Discussion and Analysis (Unaudited)

portfolio. This portfolio returned -14.56% which was below its blended benchmark that returned -13.03% for fiscal year end 2022 and 5.1%, which was above its blended benchmark that returned 3.3%, respectively, during fiscal 2021.

Lease Receivables

Lease receivables of \$19.0 million and \$18.7 million at June 30, 2022 and 2021, respectively, were recorded with the adoption of GASB 87. The increase in lease receivables of \$359 from June 30, 2021 to 2022 was due to the amortization of lease payments between lease receivables and lease revenue in fiscal year 2022 and the recognition of one new lease in fiscal year 2022.

Restricted Deposits Held With Trustees

Restricted deposits held with trustees had a net decrease of approximately \$853 thousand and \$16.2 million as of June 30, 2022 and 2021, respectively, primarily due to withdrawals from the construction fund. Consistent with the prior fiscal year, debt service payments for July 1, 2021 are reflected in the restricted deposits held with bond trustees as of June 30, 2022 and 2021.

Capital Assets

At June 30, 2022 and 2021, the College had \$626.9 million and \$647.5 million, invested in capital assets, net of accumulated depreciation of \$410.1 million and \$384.5 million, respectively, and right-to-use lease assets, net of \$766 thousand and \$956 thousand, respectively. Depreciation charges totaled \$29.8 million and \$29.4 million, for the years ended June 30, 2022 and 2021, respectively. Net capital additions totaling \$5.3 million and \$8.5 million in fiscal years 2022 and 2021, respectively, were comprised primarily of various infrastructure asset renewal projects. These additions were funded by institutional reserves and proceeds from bonds. The following is a breakdown of the net additions for fiscal year ended June 30, 2022, 2021 and 2020:

Net Capital Additions (Amounts in thousands)			
	2022	2021	2020
Net additions:			
Land and land improvements	\$ 124	164	—
Works of art/historical treasures	—	—	6
Buildings and building improvements	1,100	1,968	23,724
Infrastructure	10,388	7,434	5,113
Equipment and other assets	(2,840)	2,165	1,216
Construction in progress, net	(3,435)	(3,188)	(15,920)
Net total additions	<u>\$ 5,337</u>	<u>8,543</u>	<u>14,139</u>

See note 6 for further discussion of capital assets. See notes 2(g) and 7 for further discussion of leases, including right-to-use lease assets. See note 2(m) for further discussion of the impact of the adoption of GASB 87.

Management's Discussion and Analysis (Unaudited)

Deferred Outflows of Resources

During fiscal years 2022 and 2021, the deferred outflows of resources consist of deferred amounts from debt refunding and pensions. In fiscal years 2022 and 2021, the deferred outflows of resources related to debt refunding decreased by \$4.4 million and increased \$22.2 million, respectively, due to of deferred outflows from the Series 2020D bond issuance, partially offset by the amortization of the deferred amounts, while the deferred outflows relating to pensions decreased and increased by \$22.1 million and \$66.6 million, respectively, due to changes in proportion of the allocated pension liability and changes in actuarial assumptions used to calculate the pension liability.

Liabilities

Current Liabilities

Current liabilities increased by \$3.2 million from \$31.7 million as of June 30, 2021 to \$35.0 million as of June 30, 2022 and decreased by \$27.2 million from \$58.9 million as of June 30, 2020 to \$31.7 million as of June 30, 2021. This increase was mainly due to an increase in accounts payable and accrued expenses. The debt service payments made by the College to the trustee in June for payment to bondholders on July 1 are reported in accounts payable and accrued expenses.

Noncurrent Liabilities

During fiscal year 2022, noncurrent liabilities decreased by \$78.7 million, primarily due to a \$75.4 million decrease of the net pension liability under GASB 68 and a \$1.9 million decrease in other long-term obligations from principal payments during the year. During fiscal year 2021, noncurrent liabilities increased by \$106.6 million, primarily due to a \$65.6 million increase of the net pension liability under GASB 68 and a \$42.5 million increase in bonds payable from the Series 2020D debt restructuring.

Long-Term Debt

The use of debt has been a key component in the College's transformation into a selective institution that has earned national recognitions for its commitment to academic excellence. The attractiveness of the College's facilities is an important factor in the College's ability to recruit highly qualified students. At June 30, 2022 and 2021, the College had \$362.1 million and \$364.6 million, in outstanding bonds and other long-term obligations including bond premium, issued by the New Jersey Educational Facilities Authority. TCNJ's debt burden is a characteristic of many New Jersey state colleges and universities due primarily to the lack of state capital support historically and TCNJ's strategic choice to invest and reinvest in state-of-the-art facilities.

The College's long-term debt structure is all fixed-rate with no interest rate swaps. Additional information about the College's existing long-term liabilities is presented in note 10 to the financial statements.

Deferred Inflows of Resources

During fiscal years 2022 and 2021, respectively, the deferred inflows of resources consisting of deferred amounts relating to pensions of \$92.6 million and \$49.7 million and deferred amounts from leases of \$17.7 million and \$18.0 million, respectively, increased by \$42.6 million and \$36.7 million from the prior fiscal year. The deferred amounts from pensions represent the College's proportionate share recognized under GASB 68 for each fiscal year. The deferred amounts from leases represent future inflows of resources from lease payments received by the College amortized in a systematic and rational manner.

Management's Discussion and Analysis (Unaudited)

Net Position

Net position represents the residual interest in the College's assets and deferred outflows of resources after all liabilities and deferred inflows are deducted. Net position is one indicator of the financial condition of the College, while the change in net position during the year is a measure of whether the overall condition has improved or worsened during the year.

The College's net position before the GASB 68 adjustment to the financial statements decreased by \$26.4 million in fiscal year 2022 and increased by \$4.0 million in fiscal year 2021. The impact of net pension expense under GASB 68 on the change in net position was an increase of \$10.4 million in fiscal year 2022 and a decrease of \$17.7 million in fiscal year 2021. The reported net position showed a decrease of \$16.0 million and \$13.7 million, or 5.7% and 4.7% in fiscal years 2022 and 2021, respectively.

At June 30, 2022 and 2021 the total net position was reflected in the following three component categories:

- Net investment in capital assets represents the College's capital assets, net of accumulated depreciation and outstanding debt attributable to the acquisition, construction, or improvement of those assets. During fiscal years 2022 and 2021, this category decreased \$19.4 million and \$56.1 million, due to the net decrease of \$20.5 million and \$18.9 million in capital assets and the \$2.7 million decrease and \$28.9 million increase, respectively, in outstanding debt attributable to those assets.
- Restricted expendable net position represents resources that are subject to externally imposed stipulations regarding their use, but are not required to be maintained in perpetuity. During fiscal years 2022 and 2021, this category decreased by \$512 thousand and \$12.7 million, respectively, due to the reduction in debt service payments from the Series 2021D bond restructuring.
- Unrestricted net position is not subject to externally imposed stipulations although these resources may be designated for specific purposes by the College's management or Board of Trustees. In fiscal years 2022 and 2021, this category had an increase of \$3.9 million and \$55.1 million, respectively, primarily due to the recording of the College's proportionate share of pension expense and related deferred outflows of resources, net pension liability and deferred inflows of resources under GASB 68 coupled with investment appreciation.

Statement of Revenues, Expenses and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position present the College's results of operations. The statement distinguishes revenues and expenses between operating and nonoperating categories, and provides a view of the College's performance. Generally speaking, operating revenues are received for providing goods and services to the various customers and constituencies of the College. Operating expenses are incurred in the normal operation of the College, including a provision for estimated depreciation on capital assets. Revenues and expenses are recognized when earned or incurred regardless of when the cash is received or paid.

Certain revenue sources that the College relies on for operations, including state appropriations and investment income, are required by GASB to be classified as nonoperating revenues. Nonoperating expenses primarily include interest expense and amortization expense related to the deferred outflows of resources from debt refunding and lease obligations. The College will likely always report an operating loss due to the types of

Management's Discussion and Analysis (Unaudited)

revenues classified as nonoperating. Therefore, the change in net position is more indicative of the overall financial results for the fiscal year.

A summary of the College's revenues, expenses, and changes in net position for the fiscal years ended June 30, 2022, 2021 and 2020 are as follows. Fiscal year 2022 includes the adoption of GASB 87 and fiscal year 2021 has been restated for the adoption. Fiscal year 2020 has not been restated for GASB 87.

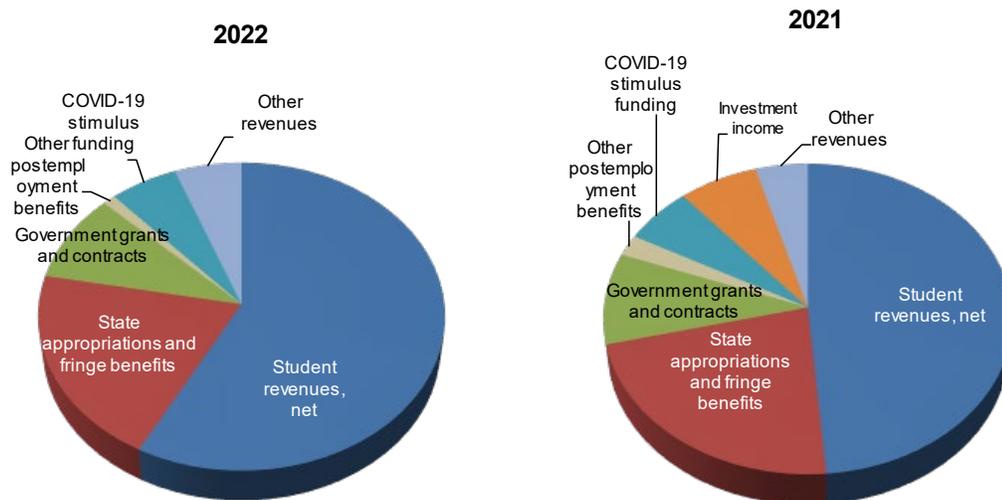

Condensed Statements of Revenues, Expenses and Changes in Net Position (Amounts in thousands)			
	2022	2021	2020

Management's Discussion and Analysis (Unaudited)

Statement of Revenues, Expenses and Changes in Net Position Financial Highlights

Revenues

The following is an illustration of revenues by source (both operating and nonoperating), that were used to fund the College's activities for the fiscal years ended June 30, 2022 and 2021:

	2022		2021	
	Amount	Percent	Amount	Percent
(Amounts in thousands)				
Student revenues, net	\$ 148,925	57.8%	\$ 111,382	48.6%
State appropriations and fringe benefits	52,094	20.2%	51,664	22.6%
Government grants and contracts	23,976	9.3%	21,751	9.5%
Other postemployment benefits	2,841	1.1%	5,006	2.2%
COVID-19 stimulus funding	15,042	5.8%	13,530	5.9%
Investment income	—	0.0%	15,489	6.8%
Other revenues	14,857	5.8%	10,165	4.4%
	<u>\$ 257,735</u>	<u>100.0%</u>	<u>\$ 228,987</u>	<u>100.0%</u>

The College's revenue diversity is somewhat limited, with student-derived revenues (net tuition and housing revenues) accounting for 57.9% and 48.6% of the total revenue in fiscal 2022 and 2021, followed by state appropriations at 20.2% and 22.6%, and government grants and contracts at 9.3% and 9.5%, respectively. Investment income was a loss of \$13.6 million in fiscal year 2022 which is not included in the table of revenues above.

Management's Discussion and Analysis (Unaudited)

Operating Revenues

Operating revenues represent resources generated by the College in fulfilling its instruction, research and public service mandate. Total operating revenues increased by \$44.0 million and decreased \$37.0 million in fiscal years 2022 and 2021, respectively. The increase for fiscal year 2022 is attributed to the revenue from auxiliary activities returning to full operations after the COVID-19 pandemic restrictions were lifted.

Tuition and Fees

Tuition and fees revenues increased \$3.2 million and decreased \$3.4 million, or 2.4% and 2.5%, in fiscal years 2022 and 2021, respectively, primarily due to the College's continued strategic efforts to keep the cost of education affordable and maintain enrollment coupled with the financial crisis that resulted from the COVID-19 pandemic. There was an overall 2.75% tuition rate increase and mandatory fees were restored to pre-COVID-19 rates.

Student Housing and Fees

In fiscal years 2022 and 2021, student housing and fees increased by \$37.1 million and decreased \$30.8 million, respectively. The increase in revenue in fiscal year 2022 is primarily due to removing restrictions on housing from the COVID-19 pandemic coupled with the increase of 2.0% in room and 3.75% in meal plan rates. In fiscal year 2021, the COVID-19 public health crisis and the State of New Jersey mandates resulted in the migration of instructional modality to online delivery for the fall 2021. The College limited the number of residential students living on campus due to the continued COVID-19 restrictions. In addition, fiscal year 2021 room rates were held flat and there was a reduction in the meal plan cost.

Scholarship Allowance

Scholarship allowance increased by \$2.8 million or 9.0% and decreased \$519 thousand, or 1.6%, in fiscal years 2022 and 2021, respectively. This is primarily due to a strategic priority of the College to increase institutional scholarships coupled with an increase federal and state scholarships. In fiscal year 2021 there was a decrease in institutional funded tuition and housing scholarships as reflected in the below.

Scholarship Allowance (Amounts in thousands)			
	2022	2021	2020
State scholarships	\$ 8,742	8,627	8,373
Federal scholarships	7,349	7,003	6,641
Institutional scholarships	17,854	15,511	16,646
Total scholarships	\$ 33,945	31,141	31,660

Government Grants and Contracts

The College recognizes revenues associated with the direct costs of grants and contracts as the related eligible expenditures are incurred. In fiscal years 2022 and 2021, respectively, government grants and contracts had a net increase of \$2.2 million and \$516 thousand primarily due to an increase in federal financial aid grants.

Management's Discussion and Analysis (Unaudited)

Auxiliary Activities

Auxiliary activities, which are self-supporting activities increased \$1.1 million from \$2.8 million in fiscal year 2021 to \$3.9 million in fiscal year 2022. Included in auxiliary activities are revenues derived primarily from food service vendor contributions, commissions, student center and conference center operations, and summer camp activities. In fiscal year 2022 food service vendor contributions, commissions, and student center revenues increased due to resumed operations. In fiscal year 2021, student center and conference center operations and summer camp activities were minimal due to continued COVID-19 restrictions.

Nonoperating Revenues

Nonoperating revenues are those not generated by the College's core mission and include such funding sources as investment income and New Jersey State support, appropriations and funding for fringe and other postemployment benefits.

New Jersey State Appropriations

In fiscal years 2022 and 2021, New Jersey state appropriations represented approximately 20.4% and 22.6%, respectively, of all operating and nonoperating revenues. The level of state support is a key factor influencing the College's overall financial condition. The state appropriations include amounts appropriated by the State Legislature and employees' fringe benefits paid by the State.

The College reimburses the State for the fringe benefit costs for the number of employees who exceed the state authorized position count of 859 for TCNJ. Even though state appropriations are considered nonoperating revenue for financial reporting purposes, the total amount supports operating expenses.

The operating state support to the College increased in fiscal year 2022 by \$1.4 million due to an increase in the College's budgeted appropriation by the State. In fiscal year 2021, the operating state support increased by \$5.4 million due to the restoration of the College's budgeted appropriation to pre-COVID-19 levels by the State. The increase in the state appropriation was offset by a reduction in fringe benefit appropriations allocated for the state authorized positions.

The breakdown of the state appropriations at June 30, 2022, 2021 and 2020 are as follows:

State Appropriations (Amounts in thousands)				
		2022	2021	2020
State appropriations	\$	30,062	28,708	23,357
Fringe benefits		22,032	22,956	27,037
Gross state support	\$	<u>52,094</u>	<u>51,664</u>	<u>50,394</u>

Management's Discussion and Analysis (Unaudited)

Other Postemployment Benefit Revenue

Other postemployment benefit (OPEB) revenue represents the College's proportionate share of OPEB expenses under GASB 75. This non-cash revenue is a direct offset of the OPEB expenses that were recognized in fiscal years 2022 and 2021. See note 12 for additional information on OPEB.

Investment Income

Investment income includes interest and dividend income as well as realized and unrealized gains and losses. During fiscal year 2022 the stock market performance resulted in significant depreciation of the investment portfolio as compared to the strong stock market performance in fiscal year 2021 which resulted in significant appreciation of the investment portfolio. A net loss of approximately \$13.6 million or 14.4% was recognized in fiscal year 2022 compared to a net gain of and \$15.5 million or 19.5% in fiscal year 2021.

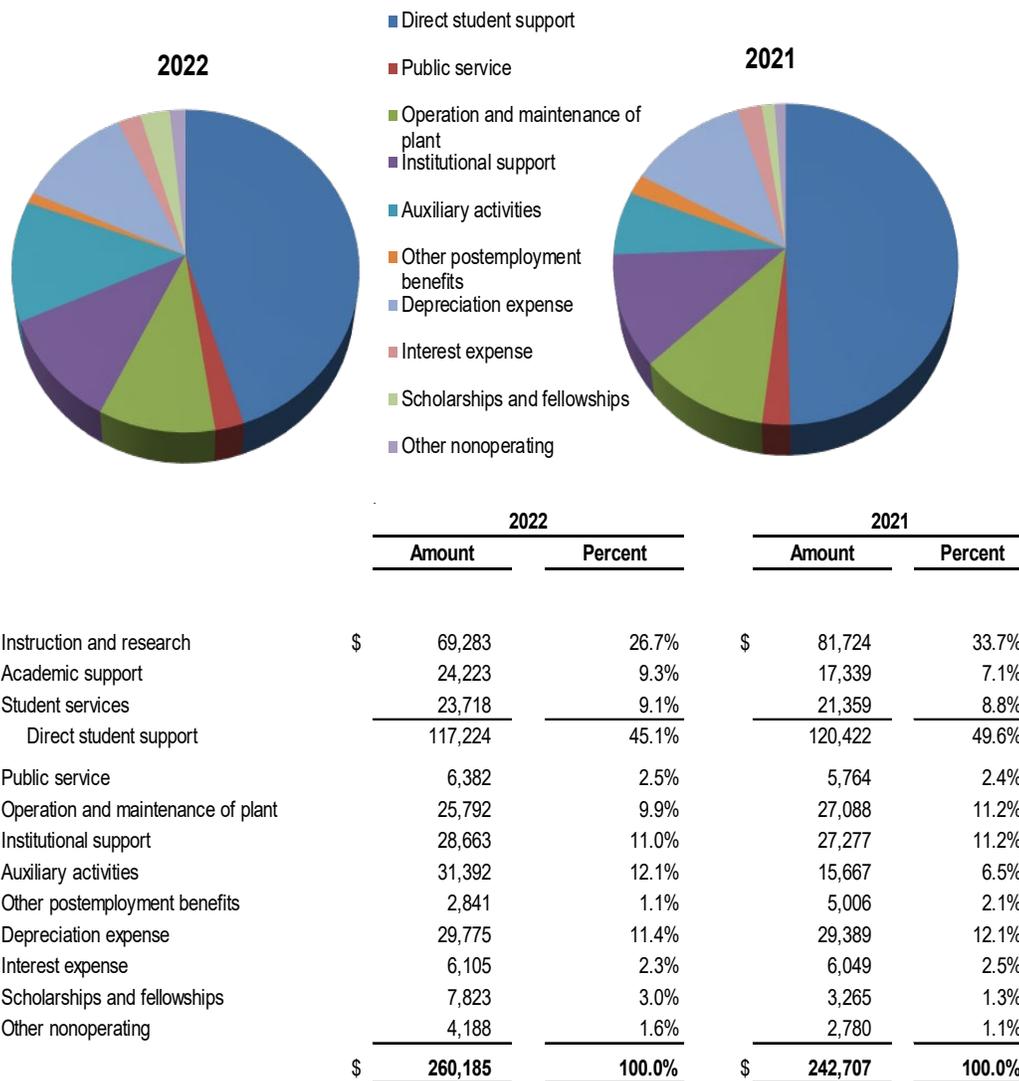

COVID-19 Stimulus Funding

In fiscal years 2022 and 2021, the College recognized \$15.0 million and \$13.5 million, respectively, in revenue from various COVID-19 stimulus funding sources, including Higher Education Emergency Relief Fund (HEERF), Governor's Emergency Education Relief Fund (GEERF), and Coronavirus Relief Fund (CRF). These funds were used to provide \$6.4 million in grants to students and reimburse the College for \$1.8 million in lost revenues and COVID-19 related expenses in fiscal year 2022. In fiscal year 2021, these funds were used to provide \$1.6 million in grants to students and reimburse the College for \$11.9 million in lost revenues and COVID-19 related expenses. Amounts received from grants for which eligibility requirements have not been met under the terms of the agreements are included in unearned revenue in the statements of net position.

Management's Discussion and Analysis (Unaudited)

Expenses

The following is an illustration of total expenses by function (both operating and nonoperating), for the fiscal years ended June 30, 2022 and 2021:

The College has consistently demonstrated its commitment to preserving the quality of its academic programs despite the challenging state funding environment by continuing to allocate a significant portion of its expenses to direct student support (instruction, research, academic support and student services) and to college-funded scholarships which are reported as a reduction of student revenues in the financial statements.

Management's Discussion and Analysis (Unaudited)

Operating Expenses

In fiscal years 2022 and 2021, total operating expenses were \$249.9 million and \$233.9 million, representing an overall net increase of \$13.2 million or 5.6% and net decrease of \$3.9 million or 1.7%, over the previous fiscal year total of \$233.9 million and \$237.8 million, respectively. The College experienced increases in auxiliary activities, academic support, student services, and scholarship expenses in fiscal year 2022 as a result of the campus returning to full operations after the COVID-19 pandemic, including the end of the furloughs from fiscal year 2021. These increases were offset by a \$28.1 million decrease in net pension expense and a \$2.8 million increase in the College's proportionate share of the OPEB expense.

Instruction and Research

The combination of instruction and research represents the College's largest operating expense category. Instruction and research expenses decreased \$12.2 million in fiscal year 2022 primarily due to a \$12.4 million decrease in net pension expense. In fiscal year 2021, the decrease in instruction was due to salary and fringe savings from furloughs and non-salary expense reductions which were offset by a \$5.2 million increase in net pension expense. The increase in research was due to an increase in grant-funded salary and fringe plus a \$2.6 million increase in net pension expense.

Academic Support

In fiscal years 2022 and 2021, academic support expenses increased \$6.9 million or 39.7% and \$61 thousand, or 0.4%, respectively. Fiscal year 2022 expenses increased in salary and fringe offset by a \$3.1 million decrease in net pension expense. During fiscal year 2021, the reductions in salary, fringe and non-salary expenses were offset by the \$1.4 million increase in net pension expense.

Public Service

Public service represents grant activities and academic enterprise programs geared toward community involvement and benefit, such as the Center for Community Engagement, Small Business Development Center, Sustainability Institute, New Jersey AmeriCorps grants, and New Jersey Tutoring Corps grants. This category increased by \$618 thousand or 10.7% and \$210 thousand, or 3.8%, in fiscal years 2022 and 2021, respectively. In fiscal year 2022, salary and fringe increases were offset by a \$856 thousand decrease in net pension expense. Fiscal year 2021 increased as a result of expense reductions that were offset by the \$352 thousand increase in net pension expense.

Student Services

In fiscal years 2022 and 2021, student service expenses increased by \$2.1 million or 9.0% and decreased by \$179 thousand or 0.8%, respectively. Fiscal year 2022's decrease of \$3.2 million in net pension expense was offset by increases in expenses for salary and fringe, commencement and athletics which resumed normal operations. The fiscal year 2021 change was due to expense reductions that were offset by the \$2.7 million increase in net pension expense.

Operation and Maintenance of Plant

Operation and maintenance of plant decreased by \$1.3 million or 4.8% in fiscal year 2022, primarily due to a \$3.6 million decrease in net pension expense that was offset by an increase in fuel and utility expenses. This category

Management's Discussion and Analysis (Unaudited)

increased by \$589 thousand or 2.2% in fiscal year 2021 due to expense reductions that were offset by the \$1.9 million increase in net pension expense.

Institutional Support

In fiscal years 2022 and 2021, institutional support increased by \$1.4 million or 5.1% and \$2.7 million, or 10.8%, respectively. Fiscal year 2022 experienced increases in salary and fringe and non-salary expenses for strategic priorities. These increases were partially offset by a \$3.4 million decrease in net pension expense. The fiscal year 2021 increase was due to salary and fringe savings from furloughs and non-salary expense reductions which were offset by a \$2.3 million increase in net pension expense. Additionally, the institutional overhead charged to auxiliaries was reduced in fiscal year 2021.

Auxiliary Activities

In fiscal years 2022 and 2021, auxiliary activities increased by \$15.7 million or 100.4% and decreased \$14.5 million, or 48.1%, respectively. The fiscal year 2022 increase was due to housing and food service operations being returned to normal operations after the COVID-19 pandemic, offset by a \$1.6 million decrease in net pension expense. The fiscal year 2021 decrease was primarily due to a \$10.0 million reduction in food service costs, a \$3.8 million reduction in institutional overhead charges, and salary and fringe savings from furloughs. These savings were partially offset by a \$1.0 million increase in net pension expense.

Other Postemployment Benefit Expense

The fiscal years 2022 and 2021 OPEB expense represents the College's proportionate share of OPEB expenses under GASB 75, respectively. OPEB expense decreased by 2.2 million from \$5.0 million in fiscal year 2021 to \$2.8 million in fiscal year 2022. This non-cash expense is directly offset by the OPEB revenue that were recognized in fiscal years 2022 and 2021. See note 12 for additional information on OPEB.

Depreciation Expense

Depreciation expense increased by \$386 thousand or 1.3% and \$1.4 million, or 4.9% in fiscal years 2022 and 2021, respectively, due to additional capital expenditures which were eligible to be depreciated and the recognition of amortization expense on right-to-use lease assets in conjunction with the adoption of GASB 87. See note 2(m) for further discussion of the impact of the GASB 87 adoption.

Nonoperating Expenses

Nonoperating expenses are those not incurred by the College's core mission and include such activities as interest on debt and transactions with institutionally affiliated organizations.

Interest Expense

Interest expense decreased by \$56 thousand or 0.9% and \$5.2 million, or 46.2% in fiscal years 2022 and 2021, respectively, primarily due to debt service savings achieved from the Series 2020D debt restructuring. Interest expense also includes interest expense on lease liabilities recognized in accordance with GASB 87. See note 2(m) for further discussion of the impact of the GASB 87 adoption.

Management's Discussion and Analysis (Unaudited)

Transactions with Affiliates

The College's affiliates include The College of New Jersey Foundation (the Foundation) and the Trenton State College Corporation (the Corporation). Examples of transactions that are reflected in affiliate transfers include: funds disbursed from the Foundation for institutional scholarship support, restricted fund disbursements from the Foundation and transfer of properties from the Corporation. In fiscal years 2022 and 2021, transactions with affiliates increased by \$415 thousand or 14.1% and \$1.2 million, or 72.6%, respectively, primarily due to increased operating support and private grant transfers from the Foundation.

Other Revenues (Expenses), Net

In fiscal years 2022 and 2021, respectively, other nonoperating revenue had a net increase of \$1.4 million and a \$157 thousand primarily due to a decrease in bond administrative costs related to the Series 2020D bond issuance and the recognition of lease interest revenue in accordance with GASB 87. See note 2(m) for further discussion of the impact of the GASB 87 adoption.

Coronavirus Outbreak

The spread of COVID-19 around the world has caused significant volatility in the United States and international economies and markets. In compliance with Executive Order #104 issued by Governor Phil Murphy of New Jersey on March 16, 2020, the College moved classes online, effective on March 23, 2020.

Online course delivery was later extended for the fall 2020 and a hybrid format for spring 2021 semester. The majority of campus events scheduled during this timeframe were canceled or postponed. All but essential employees were required to work from home. Employee travel for business purposes was suspended. The results of operations for the fiscal years ended June 30, 2022 and 2021 was affected by the impacts of the COVID-19 public health crisis on the College. The College collected minimal revenues for room and board in fall 2020 as on-campus housing was only provided to select students. Spring 2022 and 2021 room and board revenues were significantly reduced due to COVID-19 restrictions for campus housing. In addition, there were reductions in certain mandatory fees related to on-campus presence.

To mitigate the adverse financial impacts, the College has significantly reduced discretionary spending, instituted a hiring freeze, suspended travel by College personnel and accepted approximately \$25.3 million of total federal emergency relief funds from the HEERF, GEERF, FEMA and CRF to be used to partially offset institutional losses. Of this \$25.3 million, \$8.6 million was recognized as revenue in fiscal year 2022 and \$11.9 million was recognized as revenue in fiscal year 2021. The College also received an additional \$11.6 million of HEERF student grant funds, of which \$6.4 and \$1.6 million was disbursed to eligible students and recognized as revenue in fiscal years 2022 and 2021, respectively.

Management's Discussion and Analysis (Unaudited)

The total COVID-19 stimulus funding awards to date and revenue recognized in fiscal years 2022, 2021 and 2020 are as follows:

COVID-19 Stimulus Funding				
	Award	2022	2021	2020
		Revenue	Revenue	Revenue
HEERF I	\$ 5,028	\$ —	148	\$ 4,880
HEERF II	7,300	2,000	5,300	—
HEERF III	13,070	10,786	—	—
FEMA	3,454	2,256	—	—
GEERF	1,878	—	1,878	—
CRF I	4,298	—	4,298	—
CRF II	1,906	—	1,906	—
Total	\$ 36,934	\$ 15,042	13,530	\$ 4,880

See note 19 for additional information on the COVID-19 stimulus funding.

The College also acted early in the pandemic era to strengthen institutional finance. In 2020, during the COVID-19 pandemic, the Board of Trustees and management took proactive steps to strategically restructure over \$180.0 million of the College's outstanding debt. Because the college's debt was significantly front loaded, the restructure presented an opportunity to capture significant cash flow savings, provide flexibility to TCNJ, generate cash flow for opportunistic and strategic investments and reduce the near-term debt burden.

In addition, the College made pandemic-driven investments in health and safety (testing, physical facilities, telework), technology (classroom upgrades to support remote instruction), faculty training in virtual instruction, and graduate programs (marketing and new program initiatives), most with long-term benefit to the College. The College remains engaged in financial planning for fiscal 2023 and beyond and may need to take additional actions to offset any adverse financial effects of the continuing COVID-19 pandemic. The health and safety of its community members remains a paramount concern to the College, which will continue to follow all government directives issued during this public health crisis.

Economic Factors that Will Affect the Future

The College's long tradition of prudent management, cost containment, conservative budgeting and sensible investment strategies has allowed it to continue to strengthen its financial position through positive operating results and to weather unforeseen fiscal challenges.

Cognizant of the College's responsibility to allocate resources strategically and keep the cost of education at TCNJ affordable, the College will continue to identify areas for focused review and strategies to ensure the maintenance of its long-term financial health. These focused reviews will be coordinated with two major institutional initiatives, the new strategic planning framework and the enterprise risk management program. In fiscal year 2022, the College developed a new strategic plan that sets forth a clear set of actionable strategies that can be enacted to deliver on its mission, grow impact, and sustain financial strength in a post-pandemic era.

Management's Discussion and Analysis (Unaudited)

The College has retained the services of a premier consulting firm to work as a strategic thought partner in collaboration with the Board of Trustees and campus community.

The state and national economy will continue to pose financial challenges for the College in the future. However, as a result of strategic planning efforts and a commitment to prudent fiscal management, TCNJ will continue to make significant strategic investments over the next several years based on our financial position.

A healthy student demand and favorable market position as evidenced by stable enrollment, our sustained ability to attract and retain high-achieving students and our consistently strong operating cash from margins and liquidity, are all factors in the positive outlook for The College of New Jersey. Management believes that the College is well positioned to continue providing excellence in educational programs to our students and service to the State and to achieve its strategic goal of long-term financial sustainability.

Notes to the Financial Statements (\$ in thousands)

(1) Organization

The College of New Jersey (the College or TCNJ) is a mid-sized, comprehensive public college that concentrates primarily on the undergraduate experience. Baccalaureate and master's degrees are offered through the academic programs of the College's seven schools (Arts and Communication; Business; Education; Humanities and Social Sciences; Science; Nursing and Health Sciences; and Engineering). In the fall of 2021, TCNJ enrolled 6,781 full-time equivalent undergraduate students and 238 full-time equivalent graduate students. The College has residential facilities that house more than half of the students on campus.

The College is recognized as a public institution of higher education by the State of New Jersey (the State) and, accordingly, the State Legislature appropriates funds annually to support the College. Under the law, the College is an instrumentality of the State with a high degree of autonomy. However, pursuant to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended, the College is considered to be a component unit of the State for financial reporting purposes. Accordingly, the financial statements of the College are included in the State's Annual Comprehensive Financial Report.

The College's financial statements and notes thereto include the financial statements of The College of New Jersey Foundation, Inc. (the Foundation) and The Trenton State College Corporation (the Corporation). The Foundation and the Corporation are discretely presented component units in the College's financial statements. Additional information about the Foundation is presented in notes 3 and 16. Additional information about the Corporation is presented in notes 3 and 17.

The College's financial statements and notes also include the New Jersey Risk Management consortium (NJRM) as a fiduciary component unit of the College in accordance with GASB Statement No. 84, *Fiduciary Activities* (GASB 84). Pursuant to New Jersey Statute 18A:64-88, any two or more state colleges or universities may form and become members of a risk management group. Such a group may participate in any joint liability funds, risk management programs or related services offered or provided by the group; has the power to establish funds for authorized coverages and to jointly purchase insurance or coverages under a master policy or contract of insurance for participating members; has the power to take other actions necessary to develop, administer, and provide risk management programs, joint liability funds, joint insurance purchases, and related services; and; is not considered or deemed to be an insurance company or insurer.

The participating institutions in the NJRM are supported by the Risk Manager for the New Jersey State Colleges and Universities, who is based out of TCNJ. The Risk Manager reports to the New Jersey State Colleges and Universities Vice Presidents for Administration and Finance Council, who delegates the supervision of the Risk Manager to TCNJ's Vice President and Treasurer. The Risk Manager oversees the purchase of various insurances either directly with insurance agents or through insurance brokers, and provides general risk management support services to the colleges and universities in the group.

TCNJ serves as the fiscal agent for NJRM. As the fiscal agent, TCNJ receives purchasing approval or waiver of advertising via the College's Board of Trustees; issues premium payments on behalf of the group; and; invoices and receives reimbursement from group members for their share. TCNJ also invoices and receives reimbursement from group members for their share of the risk management program operating assessment, which includes administrative expenses for the program.

Notes to the Financial Statements (\$ in thousands)

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accounting policies of the College conform to all U.S. generally accepted accounting principles as applicable to public colleges and universities.

GASB Statement No. 35, *Basic Financial Statements—and Management’s Discussion and Analysis—for Public Colleges and Universities—an amendment of GASB Statement No. 34* (GASB 35), establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following net position categories.

- **Net investment in capital assets:** Capital assets, net of accumulated depreciation, including right-of-use lease assets, net, outstanding principal balances of debt and lease liabilities, and restricted deposits held with trustees attributable to the acquisition, construction, or improvement of those assets.
- **Restricted:**
 - Nonexpendable:* Net position that is subject to externally imposed stipulations and must be maintained permanently by the College.
 - Expendable:* Net position that is subject to externally imposed stipulations that can be fulfilled by actions of the College pursuant to the stipulations or that expire by the passage of time.
- **Unrestricted:** Net position that is not subject to externally imposed stipulations and may be designated for specific purposes by action of management to the board of trustees.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the College’s policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

(b) Measurement Focus and Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting using the economic resources measurement focus. The College reports as a business-type activity, as defined by GASB 35. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods or services. The College reports NJRM as a fiduciary activity, as defined by GASB 84. Assets, liabilities, net position, additions, and deductions related to NJRM are accounted for in a fiduciary fund.

Notes to the Financial Statements (\$ in thousands)

(c) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and all highly liquid investments purchased with an original maturity of three months or less, except for those managed as a component of the College's investment portfolio. The balance includes deposits with Wells Fargo Bank and the State of New Jersey Cash Management Fund. The State of New Jersey Cash Management Fund is a large-scale investment program with amounts contributed by other state entities. These investments consist primarily of U.S. Treasury issues, commercial paper, certificates of deposit, obligations of government agencies and corporate bonds. The State of New Jersey Cash Management Fund is classified as a cash equivalent as it is a highly liquid investment purchased with an original maturity of three months or less and it is used to support the daily cash flow needs of the College.

(d) Restricted Deposits Held with Trustees

Restricted deposits held with trustees are reflected at fair value, which is based on quoted or published market prices in an active market. Purchases and sales of investments are accounted for on the trade-date basis. Investment income is recorded on an accrual basis.

(e) Investments

Investments are reflected at fair value, which is based on quoted or published market prices or other fair value measurement methods allowed by GASB Statement No. 72, *Fair Value Measurement and Application*. Purchases and sales of investments are accounted for on the trade-date basis. Investment income is recorded on an accrual basis. Changes in fair value (including both realized and unrealized gains and losses) are reported in investment income.

(f) Capital Assets

Capital assets (excluding intangible right-to-use lease assets) are land, buildings, equipment, works of art, and infrastructure assets, such as roads and sidewalks. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Building improvements and infrastructure costing over \$5, equipment items with a unit cost of \$5 or more, land improvements over \$20, and software implementation over \$100 are capitalized. Leasehold improvements are capitalized using the building improvement and equipment thresholds and are depreciated over the life of the lease. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Works of art or historical treasures that are held for public exhibition, education, or research in furtherance of public service are capitalized.

Notes to the Financial Statements (\$ in thousands)

Capital assets of the College are depreciated using the straight-line method over the following useful lives:

Capital asset	Useful lives
Buildings	30 to 50 years
Infrastructure	5 to 35 years
Land and building improvements	5 to 25 years
Leasehold improvements	10 years
Equipment and other assets	5 to 10 years

Estimated costs to complete the projects classified as construction in progress are approximately \$20,324. Such construction costs are anticipated to be financed by capital reserves.

(g) Leases

Lessee

The College is a lessee for noncancelable leases of building space and equipment. For leases with a maximum possible term of 12 months or less at commencement, the College recognizes lease expense based on the provisions of the lease contract. For all other leases that are not 12 months or less, the College recognizes a lease liability and an offsetting intangible right-to-use lease asset.

At lease commencement, the College initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, less lease payments made at or before the lease commencement date, plus any initial direct costs ancillary to placing the underlying asset into service, less any lease incentives received at or before the lease commencement date. Subsequently, the lease asset is amortized into depreciation expense on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset. If the College is reasonably certain of exercising a purchase option contained in a lease, the lease asset will be amortized over the useful life of the underlying asset.

Key estimates and judgments include how the College determines the (1) discount rate it uses to calculate the present value of the expected lease payments, (2) lease term, and (3) lease payments.

- (1) The College generally uses its estimated incremental borrowing rate as the discount rate for leases unless the rate that the lessor/vendor charges is known. The College's incremental borrowing rate for leases is based on calculating the average rate of interest on long-term bond obligation to borrow an amount equal to the lease, under similar terms at the commencement or remeasurement date.
- (2) The lease term includes the noncancelable period of the lease plus any additional periods covered by either a College or lessor option to (1) extend for which it is reasonably certain to be exercised, or (2) terminate for which it is reasonably certain not to be exercised. Periods in which both the College and the lessor/vendor have a unilateral option to terminate (or if both parties have to agree to extend) are excluded from the lease term.

Notes to the Financial Statements (\$ in thousands)

- (3) Payments are evaluated by the College to determine if they should be included in the measurement of the lease liabilities, including those payments that require a determination of whether they are reasonably certain of being made, such as residual value guarantees, purchase options, payments for termination penalties, and other payments.

The College monitors changes in circumstances that may require remeasurement of a lease arrangement. When certain changes occur that are expected to significantly affect the amount of the lease liability, the liability is remeasured and a corresponding adjustment is made to the lease asset. Lease assets are reported with capital assets, net and lease liabilities are reported with noncurrent liabilities in the statement of net position, net of the short-term portion of the lease liabilities which are reported as current liabilities.

Lessor

The College is a lessor for noncancelable leases of land and building space. For leases with a maximum possible term of 12 months or less at commencement, the College recognizes lease revenue based on the provisions of the lease contract. For all other leases that are not 12 months or less, the College recognizes a lease receivable and an offsetting deferred inflow of resources.

At lease commencement, the College initially measures the lease receivable at the present value of payments expected to be made during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relate to future periods. The College recognizes interest income on the lease receivable and lease revenue from the deferred inflows of resources in a systematic and rational manner over the term of the lease.

Key estimates and judgments include how the College determines the (1) discount rate it uses to calculate the present value of the expected lease payments to be received, (2) lease term, and (3) lease payments to be received.

- (1) The College generally uses its estimated incremental borrowing rate as the discount rate for leases unless the actual interest rate is known. The College's incremental borrowing rate for leases is based on calculating the average rate of interest on long-term bond obligations to borrow an amount equal to the lease, under similar terms at the commencement or remeasurement date.
- (2) The lease term includes the noncancelable period of the lease plus any additional periods covered by either a College or lessee unilateral option to (1) extend for which it is reasonably certain to be exercised, or (2) terminate for which it is reasonably certain not to be exercised. Periods in which both the College and the lessee have an option to terminate are excluded from the lease term.
- (3) Lease payments to be received are evaluated by the College to determine if they should be included in the measurement of the lease receivable, including those payments that require a determination of whether they are reasonably certain of being received.

Notes to the Financial Statements (\$ in thousands)

The College monitors changes in circumstances that may require remeasurement of a lease arrangement. When certain changes occur that are expected to significantly affect the amount of the lease receivable, the receivable is remeasured and a corresponding adjustment is made to the deferred inflow of resources. Lease receivables are reported within the noncurrent asset section of the statement of net position, net of the short-term portion of the lease receivable reported as a current asset.

(h) *Deferred Outflows of Resources*

Deferred outflows of resources represent unamortized amounts from debt refunding and amounts related to changes in the net pension liability.

(i) *Deferred Inflows of Resources*

Deferred inflows of resources represent amounts related to changes in the net pension liability, future long-term lease revenue amortized in a systematic and rational manner over the lease term, and amounts related to The College of New Jersey Foundation's (the Foundation) remainder interest in irrevocable charitable gift annuity agreements

(j) *Revenue Recognition*

Revenues from student tuition and fees and auxiliary activities are presented net of scholarships applied to student accounts and are recognized in the period earned. Tuition waivers and other payments made directly to students are presented as scholarships and are included in operating expenses in the period incurred. Student tuition and fees and deposits collected in advance of the fiscal year are recorded as unearned revenue in the accompanying statement of net position.

Grant revenue is comprised mainly of funds received from grants from Federal and State of New Jersey sources and is recognized when all eligibility requirements for revenue recognition are met which is generally the period in which related expenses are incurred. Amounts received from grants for which eligibility requirements have not been met under the terms of the agreements are included in unearned revenue in the accompanying statement of net position.

Revenue from State of New Jersey appropriations is recognized in the fiscal year during which the State of New Jersey appropriates the funds to the College.

(k) *Student Activity Fees*

It is the policy of the College to collect the student activity fees (SAF) for the Student Finance Board (the Board) and periodically transfer SAF funds to the Board as the SAF is paid by students. The Board is a student-represented board of nineteen undergraduates who are delegated the responsibility to assess, allocate and distribute the SAF and the student activities fund (the total amount of money available from the SAF) in a financially responsible manner for the purpose of engaging TCNJ students in constructive programming and services that promote the values of education, entertainment, service, diversity and recreation. The Board of Trustees has delegated responsibility for SAF funds to the President of the College, who in turn has delegated it to the Vice President for Student Affairs, who has delegated it to the Board. The Board has separate cash accounts with Wells Fargo and the New Jersey Cash Management Fund to facilitate management of the student activities fund. However, the Board is not a legally separate entity and the financial activities of the Board are reported within the financial statements of the College.

Notes to the Financial Statements (\$ in thousands)

The Board is responsible for determining the allocation of funds and the ultimate distribution of funds to various clubs, service organizations and other student groups for the purpose of enriching the cocurricular life of the College community.

The Board is also responsible for administering funds for certain organizations controlled by TCNJ, such as the Residence Hall Association.

In addition, some student organizations choose to have the Board act as a “bank” for their fundraising dollars. The Board administers the funds as requested by each student organization, and balances carry over from year-to-year.

As of June 30, 2022 and 2021, respectively, \$59 and \$0 was due to be transferred from the College’s bank account to the Board’s bank account for SAF funds collected during fiscal years 2022 and 2021 from prior year student accounts receivable.

(l) Operating Activities

The College’s policy for defining operating activities as reported on the statement of revenues, expenses and changes in net position are those that serve the College’s principal purpose and generally result from exchange transactions such as the payment received for services and payment made for the purchase of goods and services. Examples include: student tuition and fees, net of scholarship allowances, and most Federal, State and private grants and contracts. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenue, as defined by GASB 35, including state appropriations, gifts, and investment income. Interest expense is reported as a nonoperating expense.

(m) Adoption of Accounting Pronouncements

In June 2017, the GASB issued Statement No. 87, *Leases*. This Statement improves the accounting and financial reporting for leases by governments. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021 (fiscal year 2022).

The adoption is reported retroactively, effective July 1, 2020 for comparative purposes. Right-to-use lease assets as of June 30, 2022 and 2021 of \$766 and of \$956, respectively, were recognized. As of June 30, 2022 and 2021, respectively, lease liabilities of \$808 and \$983 were recognized. The right-to-use lease assets are reported in capital assets, net and the lease liabilities are reported as noncurrent liabilities, with the lease principal payments for the next fiscal year reported as current liabilities. Amortization expense is reported as depreciation expense and interest expense is reported as a nonoperating expense. Lease receivables as of June 30, 2022 and 2021 of \$19,023 and \$18,664, respectively, were recognize. Deferred inflows of resources of \$17,707 and \$17,999 as of June 30, 2022 and 2021, respectively, were recognized.

Notes to the Financial Statements (\$ in thousands)

The table below illustrates the restatement of fiscal year 2021 for the adoption of GASB 87:

GASB 87 Leases Adoption Restatement of 2021			
	July 1, 2020 as previously reported	GASB 87 adoption	July 1, 2020 as restated

Notes to the Financial Statements (\$ in thousands)

(n) Accounting Pronouncements Applicable to the College, Issued but Not Yet Effective

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements. This Statement also provides guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022 (fiscal year 2023). The College is evaluating the impact of this new standard.

In May 2020, the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements for government end users. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022 (fiscal year 2023). The College is evaluating the impact of this new standard.

In April 2022, the GASB issued Statement No. 99, *Omnibus 2022*. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature for certain practice issues. The requirements of this Statement are effective at different times, with some requirements effective for reporting periods beginning after June 15, 2022 (fiscal year 2023) and other requirements effective for reporting periods beginning after June 15, 2023 (fiscal year 2024). The College is evaluating the impact of this new standard.

In June 2022, the GASB issued Statement No. 100, *Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62*. This Statement enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for reporting periods beginning after June 15, 2023 (fiscal year 2024). The College is evaluating the impact of this new standard.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement aligns the recognition and measurement guidance for compensated absences under a unified model to better meet the information needs of financial statement users. The requirements of this Statement are effective for reporting periods beginning after December 15, 2023 (fiscal year 2025). The College is evaluating the impact of this new standard.

(o) Income Taxes

The College is exempt from income taxes on related income pursuant to Federal and State tax laws as an instrumentality of the State of New Jersey.

(p) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Notes to the Financial Statements (\$ in thousands)

(3) Transactions with Affiliates

(a) *The College of New Jersey Foundation, Inc.*

The College of New Jersey Foundation, Inc. (the Foundation) has approved payments to the College for restricted scholarships, private grants, departmental funds, and institutional scholarship and operating support of \$6,178 and \$6,458 during fiscal years 2022 and 2021, respectively. In addition, the Foundation contributed \$1,304 and \$1,321 of designated scholarship support to the College during fiscal years 2022 and 2021, respectively, which is part of students' financial aid. The College provides certain administrative functions on behalf of the Foundation. The costs of salaries and benefits for administrative functions were not charged to the Foundation in fiscal years 2022 and 2021.

As of June 30, 2022 and 2021, respectively, a receivable of \$2,172 and \$4,947 was due from the Foundation. Additional information about the Foundation is presented in note 16 to the financial statements.

(b) *Trenton State College Corporation*

The Trenton State College Corporation (the Corporation) assists in the development and growth of the College through property acquisitions and facilities management. The New Jersey Board of Higher Education approved the Corporation on April 15, 1988, in accordance with the Public College Auxiliary Organizations Act, P.L. 1982. Additional information about the Corporation is presented in note 17 to the financial statements.

During fiscal years 2022 and 2021, the College incurred \$458 and \$387, respectively, in rent and related expenses paid to the Corporation for usage of space in homes owned by the Corporation. In addition, the College reimbursed the Corporation for expenses associated with the maintenance of College owned properties. As of June 30, 2022 and 2021, there were outstanding payables of \$83 and \$190, respectively, due to the Corporation relating to these expenses.

Additionally, the Corporation pays the College for the portion of salaries and benefits of College employees who perform functions for the Corporation and any expenses applicable to the Corporation. This amounted to \$368 and \$387 as of June 30, 2022 and 2021, of which \$256 and \$132 was due to the College as of June 30, 2022 and 2021, respectively.

The Corporation purchases and maintains student housing facilities in order to provide additional housing for the College's students. During fiscal years 2022 and 2021, the College reimbursed the Corporation for expenses incurred while maintaining the transfer housing facilities plus a management fee. The expenses reimbursed to the Corporation for transfer housing during fiscal years 2022 and 2021 were \$215 and \$156, respectively.

Notes to the Financial Statements (\$ in thousands)

(4) Cash, Cash Equivalents and Investments

The carrying amount of cash and cash equivalents was \$36,478 and \$17,897 as of June 30, 2022 and 2021, respectively, which included \$28,679 and \$7,356 held in the State of New Jersey Cash Management fund and \$7,799 and \$10,541 in various accounts at Wells Fargo Bank and on campus. The amount on deposit with Wells Fargo was \$10,436 and \$12,375 as of June 30, 2022 and 2021, respectively. Of the amounts on deposit at Wells Fargo Bank, \$250 was insured by the Federal Deposit Insurance Corporation (FDIC) and \$6,996 was collateralized pursuant to New Jersey Statute 52:18-16-1. Cash on deposit at Wells Fargo Bank totaling \$3,190 and \$3,272, respectively, as of June 30, 2022 and 2021 was uncollateralized.

The College participates in the State of New Jersey Cash Management Fund wherein amounts also contributed by other State entities are combined into a large-scale investment program. The operations of the State of New Jersey Cash Management Fund are governed by the provisions of the State Investment Council Regulations for the purpose of determining authorized investments. Statutes of the State of New Jersey and Regulations of the State Investment Council authorize the New Jersey Division of Investment to invest in obligations of the U.S. Treasury, agencies, and municipal or political subdivisions of the State, commercial paper, bankers acceptances, revenue obligations of public authorities, debt instruments of banks, collateralized notes, mortgages, certificates of deposit, repurchase agreements, equity, and convertible equity securities and other common types of investment securities. Investee institutions and organizations are prescribed by the statutes and regulations based on such criteria as minimum capital, dividend paying history, credit history and other evaluation factors. The fair value of the State of New Jersey Cash Management Fund is based on the number of shares held by the College and the market price of those shares as of June 30, 2022 and 2021. The Cash Management Fund is unrated with a portfolio maturity of less than one year.

The College has an investment policy approved by the Board of Trustees that establishes guidelines for permissible investments. The College may invest in equities, real estate assets, inflation hedge and fixed income assets.

Notes to the Financial Statements (\$ in thousands)

The College's investments as of June 30, 2022 and 2021 were as follows:

Investments		
	2022	2021
Mutual funds:		
Domestic equities	\$ 15,312	8,948
International equities	7,396	11,572
Fixed income	—	12,688
Mutual funds total	<u>22,708</u>	<u>33,208</u>
U.S. Treasury bonds and notes	11,723	7,219
U.S. Government agencies	6,104	7,494
Corporate bonds	11,047	4,364
Municipal bonds	292	2,356
Foreign bonds	780	—
Commercial paper	—	1,374

The fixed income mutual funds of \$12,688 as of June 30, 2021 were not rated.

Notes to the Financial Statements (\$ in thousands)

The College's investment policy requires the following limits:

- Equities – No single corporation shall exceed 5% of the College's total stock portfolio. The College's ownership of the shares of one company shall not exceed 2% of those outstanding. Not more than 25% of stock valued at market value may be held in any one industry category. Non-U.S. equity portfolio shall be no more than 35% in emerging markets exposure as defined by Morgan Stanley Capital International Inc. ("MSCI"). Real estate assets will be held in pooled vehicles, primarily holding Real Estate Investment Trusts ("REITs") and servicing companies. Inflation hedging assets held in pooled vehicles, such as the equity of companies in businesses thought to hedge inflation.
- Fixed Income — Securities, in the form of mutual funds and individual securities of the following sectors:
 - United States Government Securities
 - Government Agencies Securities
- Corporate notes and bonds – Issuers must have a long-term rating of at least A- by Standard & Poor's or A3 by Moody's. The maximum maturity of any investment in this sector is limited to five years from time of purchase. No single issuer shall exceed 5% of the College's portfolio.
- U.S. Agencies Mortgage Backed Securities (MBS), preferred stock, Collateralized Mortgage Obligations, Asset Backed Securities, Commercial Mortgage Backed Securities (CMBS)
- Certificates of deposit –The maximum maturity of any investment in this sector is limited to five years from time of purchase.
- Commercial paper – Issuers must have a short-term rating of at least A-1 by Standard & Poor's or P1 by Moody's. The maximum maturity of any investment in this sector is limited to 270 days from time of purchase.
- Bankers' acceptances – Issuers must have a short-term rating of at least A-1 by Standard & Poor's and P1 by Moody's. The maximum maturity of any investment in this sector is limited to 180 days from time of purchase.
- Municipal debt obligations – The maximum maturity of any investment in this sector is limited to five years from time of purchase. No single issuer shall exceed 5% of the College's portfolio.
- Repurchase agreements – The maximum maturity of any investment in this sector is limited to 90 days at time of purchase. No single repurchase agreement counterparty shall exceed 15% of the College's portfolio. Shall only be entered into with U.S. government securities dealers, as posted by the Federal Reserve Bank of New York
- State of New Jersey Cash Management Fund
- Money market funds – Funds must be rated AAm by Standard & Poor's or Aa-mf by Moody's. No single fund in this category shall exceed 15% of the College's portfolio.

Notes to the Financial Statements (\$ in thousands)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a debt investment. The College's investment policy provides limitations in the maturities of various types of investments as a means of managing its exposure to fair value losses arising from interest rate fluctuations. As of June 30, 2022 and 2021, the College's fixed income investments had maturity dates as follows:

2022							
Fixed Income Investments Maturity							
Maturing in years	Total	U.S. Treasury bonds and notes	U.S. Government agencies	Corporate bonds	Municipal bonds	Foreign Bonds	Certificates of deposit
Less than 1	\$ 2,092	—	—	527	115	—	1,450
1-5	11,768	6,991	39	4,129	177	432	—
6-10	8,622	3,745	262	4,371	—	244	—
Greater than 10	8,914	987	5,803	2,020	—	104	—
	<u>\$ 31,396</u>	<u>11,723</u>	<u>6,104</u>	<u>11,047</u>	<u>292</u>	<u>780</u>	<u>1,450</u>

1-5	15,751	4,199	4,727	4,107	1,392	—	1,326
6-10	831	—	831	—	—	—	—
Greater than 10	444	—	444	—	—	—	—
	<u>\$ 27,392</u>	<u>7,219</u>	<u>7,494</u>	<u>4,364</u>	<u>2,356</u>	<u>1,374</u>	<u>4,585</u>

Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the financial statements' measurement date. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1 – unadjusted quoted or published prices for identical assets or liabilities in active markets that a government can access at the measurement date;
- Level 2 – quoted or published prices other than those included within Level 1 and other inputs that are observable for an asset or liability, either directly or indirectly; and
- Level 3 – unobservable inputs for an asset or liability.

Notes to the Financial Statements (\$ in thousands)

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3. When the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level that is significant to the entire measurement.

While the College believes its valuation, methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following is a description of the valuation methodologies used for instruments measured at fair value:

- Mutual funds – The fair value of mutual funds are based on quoted market prices, when available, or market prices provided by recognized broker-dealers.
- U.S. Treasury bonds and notes – The fair value of debt and equity securities and funds are based on prices quoted in active markets for those securities.
- U.S. Government agencies – The fair value of government agencies are based on institutional bond quotes and evaluations based on various market and industry inputs.
- Corporate bonds – The fair value of corporate bonds are based on institutional bond quotes and evaluations based on various market and industry inputs.
- Municipal bonds – The fair value of municipal bonds are based on institutional bond quotes and evaluations based on various market and industry inputs.
- Foreign issues – The fair value of commercial paper is based on evaluations based on various market and industry inputs.
- Commercial paper – The fair value of commercial paper is based on evaluations based on various market and industry inputs.
- Certificates of deposit – The fair value of certificates of deposit are based on evaluations based on various market and industry inputs.
- Exchange-traded funds – The fair value of exchange-traded funds are based on quoted market prices.
- Cash and cash equivalents – These investments are measured at amortized cost and have been excluded from fair value leveling.

Notes to the Financial Statements (\$ in thousands)

The College's investments at June 30, 2022 and 2021 are summarized in the following table by their fair value hierarchy:

2022				
Investments Measured at Fair Value

As of June 30, 2022 and 2021, the College's bond obligations were collateralized by buildings and equipment with a book value of \$500,709 and \$500,274, respectively.

Notes to the Financial Statements (\$ in thousands)

(7) Leases

(a) Lessee

As discussed in note 2(g), the College is a lessee for various noncancelable leases of building space and equipment. Lease terms vary from three to ten years. The discount rate used for the calculation of the lease receivable is calculated based on the average rate for the College's long-term debt, at 4% respectively for fiscal year 2022 and 2021.

The College entered into a noncancelable ten-year lease agreement with PRC Campus Partners, LLC (PRC) on April 4, 2014 to lease a space in the Campus Town development (a mixed-use retail/student housing complex on approximately 13 acres of land adjacent to the College developed by a private real estate corporation through participation in a public private partnership with the College) to operate a campus fitness center. The College has two options to renew the agreement for an additional five-year term. The College is not reasonably certain that the option to renew will be exercised, therefore the extension periods are not included in the lease term. Under the fitness center lease agreement, the College is responsible for the capital tenant improvements to prepare the leased property for its intended use. As of June 30, 2022 and 2021, \$1,456 of capital construction costs have been incurred and were recorded as leasehold improvements in the statement of net position. The cost of these leasehold improvements is depreciated on a straight-line basis over the 10-year term of the lease agreement.

The annual base rent for year one of the lease agreement was \$196 thousand plus additional rent equal to the College's share of common area maintenance expenses as included in the lease agreement. Rental payments began on the Rent Commencement Date (September 14, 2015) in accordance with the agreement.

Year ending June 30:			
2023	\$ 241	27	268
2024	232	18	250
2025	225	8	233
2026	57	—	57
	\$ 755	53	808

(b) Lessor

As discussed in note 2(g), the College is the lessor for various noncancelable long-term leases of land and building space. Lease terms for the leases vary from one year to 50 years. The discount rate used for the calculation of the lease receivable is calculated based on the average rate for the College's long-term debt, at 4% respectively for fiscal year 2022 and 2021.

Notes to the Financial Statements (\$ in thousands)

The College is participating in a public-private partnership with a private real estate corporation to develop approximately 13 acres of land adjacent to the College into a mixed use retail/student housing complex. This project, called Campus Town, was made possible pursuant to the provisions of the New Jersey Economic Stimulus Act of 2009. The partnership has been structured to include no direct financial obligation of the College to support the project. Planning, design, construction, operation, preventative maintenance and capital renewal of the project are all borne by the developer.

The Ground Lease for Campus Town was executed by all parties at closing on April 4, 2014. The term of the Ground Lease is 50 years and the developer agrees to make basic rent payments of \$400 on the rent commencement date (September 1, 2017) in accordance with the lease agreement, increasing by an additional applicable increase rent of \$25 annually for the duration of the Ground Lease term. In addition to the basic and applicable increase rent, after the seventh year of the lease, the developer will also pay supplemental rent in accordance with the lease agreement. The developer will set rental rates for the student housing units and the College will treat this similarly to other off-campus housing it does not own and manage. The developer made ground lease rental payments of \$496 and \$471 during fiscal years 2022 and 2021, respectively. The College will not be providing any financial assistance to the developer. Upon expiration of the lease term the premises will revert to the College.

Phase One of the project opened on schedule for student housing in August 2015 for the fall semester of 2015. Phase Two of the project opened on schedule for student housing in August 2016 for the fall semester of 2016. Bond rating agencies do not include any Campus Town debt in their calculations of the College's debt burden given the state's legislation prohibiting the College from financing any portion of Campus Town, or being financially obligated.

Lease Receivable

A summary of lease receivable activity for the years ended June 30, 2022 and 2021 is as follows:

2022				
Lease Receivables				
	Beginning balance	Additions	Deductions	Ending balance
Campus Town ground lease	\$ 18,517	250	—	18,767
Cell tower roof space	147	169	(60)	256

Notes to the Financial Statements (\$ in thousands)

(8) Restricted Deposits Held with Trustees

Deposits held with trustees represent restricted funds held by U.S. Bank and BNY Mellon (the trustees), under the terms of various lease agreements, bond indentures and grant agreements. Restricted deposits held with trustees are carried in the financial statements at fair value and consist of short-term investments and government securities. As of June 30, 2022 and 2021, deposits held with trustees include the following:

Restricted Deposits Held with Trustees		
	2022	2021
Grant related deposits	\$ —	828
Debt service (principal and interest)	3,258	3,283
	<u>\$ 3,258</u>	<u>4,111</u>

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As of June 30, 2022 and 2021, the College holds \$3,258 and \$4,111, respectively, in restricted deposits held with trustees which are invested in money market funds. All money market fund investments are rated Aaa-mf. The money market funds are invested in U.S. Treasury notes and government securities which are categorized as Level 1. The maturities for all restricted deposits held by trustees' investments were less than one year as of June 30, 2022 and 2021.

(9) Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consist of the following as of June 30, 2022 and 2021:

Accounts Payable and Accrued Expenses		
	2022	2021
Bond principal and interest	\$ 3,258	3,258
Vendors	6,924	4,467
Accrued salaries and benefits	9,275	10,097
Accrued expenses – construction	1,923	392
Total	<u>\$ 21,380</u>	<u>18,214</u>

(10) Noncurrent Liabilities

The College is obligated under lease agreements associated with various revenue bonds issued by the New Jersey Educational Facilities Authority to finance the construction and acquisition of dormitories, parking garages, equipment, academic facilities, a co-generation plant, and student recreational facilities.

Notes to the Financial Statements (\$ in thousands)

The following is a breakout of bonds payable and other long-term obligations, as of June 30, 2022 and 2021:

Bonds Payable and Other Long-Term Obligations

In July 2020, the New Jersey Educational Facilities Authority (NJEFA) issued Series 2020 D (Federally Taxable) Revenue Refunding Bonds on behalf of the College to refund all or a portion of the principal and interest payments on the College's outstanding Series 2013 A, Series 2015 G, Series 2016 F and Series 2016 G bonds and to pay certain costs of issuance associated with the bond issuance.

The Series 2020 D bonds, totaling \$182,185, consists of a \$65,605 term bond with an interest rate of 3.513% maturing on July 1, 2042, and a \$116,580 term bond with an interest rate of 3.613% maturing on July 1, 2050. The College paid \$2,657 in bond issuance costs from the bond proceeds in fiscal year 2021, which includes the underwriters' discount. This also includes \$1,627 of prepaid bond insurance that will be expensed on a straight-line basis over the life of the 2020D bonds.

The refunding provided the College with cash flow savings of \$87,724 in fiscal years 2021–2026 and helped achieve level annual debt service payments from years fiscal years 2027–2036. The College's final bond maturity was extended to 2050.

(11) Benefits Paid by the State of New Jersey

The State, through separate appropriations, funds certain fringe benefits, principally healthcare costs and FICA taxes, on behalf of College employees and retirees. The costs of these benefits were funded directly by the State on behalf of the College and are included in the accompanying financial statements as part of nonoperating revenues and as operating expenses in various functional expense categories.

(12) Retirement Plans

(a) Introduction

The College participates in three cost-sharing, multiple-employer defined benefit retirement plans administered by the State of New Jersey, Division of Pensions and Benefits as follows:

- Public Employees' Retirement System (PERS) – The College was determined to be a separate employer within the State Group of the plan. Although the State has historically provided the contribution, the special funding situation criteria were not met and the New Jersey statutes are

Notes to the Financial Statements (\$ in thousands)

silent as to the legal obligation. The College has recorded its proportionate share of the net pension liability, pension expense, deferred outflows of resources and deferred inflows of resources related to the PERS plan in the financial statements.

- Police and Firemen's Retirement System (PFRS) – The College was determined to be a separate employer within the State Group of the plan. Although the State has historically provided the contribution, the special funding situation criteria were not met and the New Jersey statutes are silent as to the legal obligation. The College has recorded its proportionate share of the net pension liability, pension expense, deferred outflows of resources and deferred inflows of resources related to the PFRS plan in the financial statements.
- Teachers' Pension and Annuity Fund (TPAF) – TPAF met the GASB 68 special funding situation criteria per the New Jersey statute and thus the net pension liability is recorded by the State of New Jersey. The College has disclosed its proportionate share of the net pension liability and recorded its proportionate share of the pension expense and related revenue in the statement of revenues, expenses and changes in net position.

Benefit and employer contribution provisions are established by state statute and the provisions of the aforementioned plans can only be amended by new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for PERS, PFRS and TPAF once a Target Funded Ratio (TFR) is met, that will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation or final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible for and the benefits for service or early retirement; and benefits provided for disability retirement. The committees will also have the authority to reactivate the cost of living adjustment (COLA) on pensions. However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a 30-year projection period. Chapter 78, P.L. 2011 also suspended COLA increases for all active and future retirees of all State of New Jersey retirement plans.

A publicly available Annual Comprehensive Financial Report of the State of New Jersey Division of Pensions and Benefits, which includes financial statements, required supplementary information, and detailed information about the PERS, PFRS and TPAF plan's fiduciary net position, can be obtained at <https://www.state.nj.us/treasury/pensions/annual-reports.shtml> or by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295.

The College also participates in several defined contribution retirement plans, primarily the Alternative Benefit Program (ABP). Generally, all employees, except certain part-time employees, participate in one of these plans. Under these plans, participants make annual contributions, and the State, in accordance with annual appropriations, makes employer contributions on behalf of the College for these plans. The College is charged for pension costs through a fringe benefit charge assessed by the State which is included within the state paid fringe benefits in the accompanying financial statements.

Notes to the Financial Statements (\$ in thousands)

(b) Plan Descriptions

Public Employees' Retirement System

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division).

The vesting and benefit provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Police and Firemen's Retirement System

The State of New Jersey, Police and Firemen's Retirement System (PFRS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division).

The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits, which vest after four years of service.

Notes to the Financial Statements (\$ in thousands)

The following represents the membership tiers for PFRS:

Tier	Definition
1	Members who were enrolled prior to May 22, 2010
2	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
3	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1% for each year of creditable service over 25 years, but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Teachers' Pension and Annuity Fund

The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division).

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55 of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60 of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the

Notes to the Financial Statements (\$ in thousands)

retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Defined Contribution Plans

The ABP is a defined contribution plan that provides retirement and death benefits for or on behalf of those full-time professional employees and faculty members electing to participate in this optional retirement program. The ABP is an agency fund overseen by the State of New Jersey Division of Pensions and Benefits.

Effective July 1, 2010, the College established two supplemental retirement plans—Supplemental Alternate Benefit Plan and Supplemental Retirement Plan—for the benefit of its eligible employees and the eligible employees of certain subsidiaries and affiliates that adopt the plans. The objective of the plans is to help provide for additional security on retirement, by means of employer contributions supplemental to those under the Alternate Benefit Program for the Supplemental Alternate Benefit Plan and supplemental to those under the Alternate Benefit Program and the Supplemental Alternate Benefit Plan for the Supplemental Retirement Plan.

(c) Basis of Accounting and Valuation of Investments

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS, PFRS and TPAF and additions to/deductions from PERS', PFRS' and TPAF's fiduciary net position have been determined on the same basis as they are reported by the respective plans. Benefit payments, including refunds of employee contributions, are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(d) Contributions

PERS, PFRS and TPAF covered employees are required by State statute to contribute a certain percentage of their salaries to the plan. The contribution requirements of employees are established and may be amended by the Pension Plan Design Committee of the respective plan. Each member's percentage is based on age determined at the effective date of enrollment. The employee contribution rates as a percentage of salary for the fiscal years ended June 30, 2022 and 2021 were as follows:

Defined Benefit Retirement Plan Employee Contribution Rates		
	2022	2021
Public Employees' Retirement System	7.50 %	7.50 %
Police and Firemen's Retirement System	10.00 %	10.00 %

The College had no active employees enrolled in TPAF in the fiscal year ended June 30, 2021.

The required employer contributions are actuarially determined. Chapter 1, P.L. 2010 required the State of New Jersey to resume making actuarially recommended contributions to the defined benefit pension plans on behalf of the employers on a phased-in basis over a seven year period beginning in the fiscal year ended June 30, 2012.

Notes to the Financial Statements (\$ in thousands)

The State's contributions made subsequent to the measurement date to the PERS and PFRS plans on behalf of the College for the fiscal years ended June 30, 2022 and 2021 were as follows:

Defined Benefit Retirement Plan Employer Contributions		
	2022	2021
Public Employees' Retirement System	\$ 9,965	7,163
Police and Firemen's Retirement System	1,082	620

The above contributions are recognized in the financial statements as deferred outflows of resources.

(e) **Pension Amounts**

Net pension liability amounts recorded within the College's 2022 and 2021 financial statements are measured as of June 30, 2021 and 2020, respectively. The College's proportion of the respective plans' net pension liability was based on the ratio of the employer contributions made related to the College's employees to the total contributions made by all participating State-group employers for the fiscal year ended June 30, 2021 and 2020, respectively. Pension expense is recognized within the functional classifications in the statement of revenues, expenses and changes in net position.

2022			
Summary of Pension Amounts			
	PERS	PFRS	TPAF*
College proportionate share of the net pension liability	\$ 129,249	5,671	527
College proportion of the net pension liability – State group: 2022	0.598 %	0.140 %	0.001 %
College proportion of the net pension liability – Plan as a whole: 2022	0.385 %	0.042 %	0.000 %
Deferred outflows of resources	65,871	1,577	N/A
Deferred inflows of resources	90,612	1,983	N/A
Pension expense (benefit)	1,112	(40)	12

*TPAF meets the special funding situation criteria of the GASB 68. The proportionate share of the net pension liability shown here is the portion of the State's net pension liability attributable to the College, and is 100% of the amount attributable to the College. Pension expense is recognized as expense and revenue by the College.

Total deferrals recognized as pension expense		(34,706)	(1,488)
Deferred outflows recognized as a reduction to net pension liability in fiscal year 2023		9,965	1,082
Net deferred (inflows) outflows	\$	(24,741)	(406)

(f) Defined Benefit Plan Assumptions

The College's June 30, 2022 net pension liability for each plan was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability for each plan was determined by an actuarial valuation as of July 1, 2020 rolled forward to June 30, 2021.

Notes to the Financial Statements (\$ in thousands)

The total pension liability for each plan was determined using the following actuarial assumptions:

2022			
Actuarial Methods and Assumptions			
	PERS	PFRS	TPAF
Valuation date	7/1/2020	7/1/2020	7/1/2020

For the June 30, 2021 and 2020 measurement dates, PERS Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For the June 30, 2021 and 2020 measurement dates, the mortality improvement is based on Scale MP-2021 and Scale MP-2020, respectively.

For the June 30, 2021 and 2020 measurement dates, PFRS pre-retirement mortality rates were based on the Pub-2010 Safety Employee mortality table with a 105.6% adjustment for males and 102.5% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries (contingent annuitants), the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational

Notes to the Financial Statements (\$ in thousands)

basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152.0% adjustment for males and 109.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For the June 30, 2021 and 2020 measurement dates, the mortality improvement is based on Scale MP-2021 and Scale MP-2020, respectively.

For the June 30, 2021 and 2020 measurement dates, TPAF pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For the June 30, 2021 and 2020 measurement dates, the mortality improvement is based on Scale MP-2021 and Scale MP-2020, respectively.

Discount Rate

The discount rate used to measure the total pension liabilities for PERS, PFRS and TPAF, respectively, as of June 30, 2021 are in the table above. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members for PERS, PFRS and TPAF. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments for PERS, PFRS and TPAF to determine the total pension liability.

The discount rate used to measure the total pension liabilities for PERS and PFRS, respectively, as of June 30, 2020 are in the table above. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members for PERS and PFRS. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments for PERS and PFRS to determine the total pension liability.

The discount rate used in the table above used to measure the total pension liabilities for TPAF as of June 30, 2020 is a single blended discount rate based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 2.21% as of June 30, 2021 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 78% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2062 for TPAF. Therefore, the long-term expected rate of return on plan investments

Notes to the Financial Statements (\$ in thousands)

was applied to projected benefit payments through 2062 for TPAF and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments in the table above was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans target asset allocation as of June 30, 2022 and 2021 are summarized in the following tables:

2022		
Target Asset Allocation and Long-Term Expected Rate of Return		
	PERS, PFRS and TPAF	
	Target allocation	Long-term expected real rate of return
U.S. equity	27.00%	8.09%
Non-U.S. developed markets equity	13.50%	8.71%
Emerging markets equity	5.50%	10.96%
Private equity	13.00%	11.30%
Real assets	3.00%	7.40%
Real estate	8.00%	9.15%
High yield	2.00%	3.75%
Private credit	8.00%	7.60%
Investment grade credit	8.00%	1.68%
Cash equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	0.95%
Risk mitigation strategies	3.00%	3.35%

Notes to the Financial Statements (\$ in thousands)

2021		
Target Asset Allocation and Long-Term Expected Rate of Return		
	PERS, PFRS and TPAF	
	Target allocation	Long-term expected real rate of return
U.S. equity	27.00%	7.71%
Non-U.S. developed markets equity	13.50%	8.57%
Emerging markets equity	5.50%	10.23%
Private equity	13.00%	11.42%
Real assets	3.00%	9.73%
Real estate	8.00%	9.56%
High yield	2.00%	5.95%
Private credit	8.00%	7.59%
Investment grade credit	8.00%	2.67%
Cash equivalents	4.00%	0.50%
U.S. Treasuries	5.00%	1.94%
Risk mitigation strategies	3.00%	3.40%

Change in Assumptions

For the valuation used in the measurement of the net pension liability for PERS as of June 30, 2021, the discount rate did not change from 7.00% at June 30, 2020. For the valuation used in the measurement of the net pension liability for PFRS as of June 30, 2021, the discount rate did not change from 7.00% at June 30, 2020. For the valuation used in the measurement of the net pension liability for TPAF as of June 30, 2021, the discount rate increased from 5.40% at June 30, 2020 to 7.00%. For TPAF, the municipal bond rate was not used at June 30, 2021.

For the valuation used in the measurement of the net pension liability for PERS as of June 30, 2020, the discount rate increased from 6.28% at June 30, 2019 to 7.00%. For the valuation used in the measurement of the net pension liability for PFRS as of June 30, 2020, the discount rate increased from 6.85% at June 30, 2019 to 7.00%. For the valuation used in the measurement of the net pension liability for TPAF as of June 30, 2020, the discount rate decreased from 5.60% at June 30, 2019 to 5.40%. For TPAF, the municipal bond rate decreased from 3.50% at June 30, 2019 to 2.21% at June 30, 2020.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following table presents the College's proportionate share of the collective net pension liability for PERS and PFRS as of June 30, 2022 calculated using the discount rate as disclosed above for each plan as well as what the College's proportionate share of the collective net pension liability would be

Notes to the Financial Statements (\$ in thousands)

if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

2022			
Sensitivity of the Net Pension Liability			
Pension Plan	1.0% decrease in discount rate	At current discount rate	1.0% increase in discount rate
PERS (6.00%, 7.00%, 8.00%)	148,342	129,249	113,094
PFRS (6.00%, 7.00%, 8.00%)	6,637	5,671	4,866

2021			
Sensitivity of the Net Pension Liability			
Pension Plan	1.0% decrease in discount rate	At current discount rate	1.0% increase in discount rate
PERS (6.00%, 7.00%, 8.00%)	232,708	203,981	179,680
PFRS (6.00%, 7.00%, 8.00%)	7,347	6,319	5,464

(g) Alternate Benefit Program

The ABP currently provides the choice of seven investment carriers: Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA/CREF), VALIC, AXA Financial (Equitable), Met Life, MassMutual (formerly The Hartford), VOYA Financial Services and Prudential Retirement Services. The College assumes no liability for ABP members other than payment of contributions. A separate board of trustees administers ABP alternatives. The State and Social Security Law establishes participation eligibility as well as contributory and noncontributory requirements.

Benefits are determined by the amount of individual accumulations and the retirement income option selected. All benefits vest after the completion of one year of service. Individually owned annuity contracts that provide for full ownership of retirement and survivor benefits are purchased at the time of vesting. Participating College employees contribute 5% of salary and may contribute a voluntary additional contribution up to the maximum Federal statutory limit, on a pretax basis. Employer

Notes to the Financial Statements (\$ in thousands)

contributions for the ABP are 8%. During the years ended June 30, 2022 and 2021, ABP investment carriers received employer and employee contributions as follows:

ABP Employer and Employee Contributions		
	2022	2021
Employer contributions	\$ 6,040	5,909
Employee contributions	3,779	4,010
Participating employees' salaries	75,500	73,857

Employer contributions to the ABP are paid by the State and are reflected in the accompanying financial statements as nonoperating revenue under New Jersey State appropriations and as operating expenses in various functional expense categories.

(h) **Supplemental Alternate Benefit Program**

The plan is administered by the College. TIAA-CREF is the privately operated investment carrier for this defined contribution retirement plan. All contributions are made by the College with non-State funds. The plan is intended to qualify as a governmental plan that is a tax-sheltered annuity plan under section 403(b) of the Internal Revenue Code of 1986, as amended. It is also intended that the Plan be exempt from the Employee Retiree Income Security Act of 1974, as amended, pursuant to Department of Labor regulations section 2510.3-2(f). Each employee whose compensation exceeds the State limit on contributions for the ABP in a given year shall be eligible to participate in the plan and have employer contributions made on their behalf. The College will contribute 8% of the employee's compensation in excess of the State limit on compensation. The accumulated base salary limit during calendar year 2021 is \$141 and \$175 for calendar year 2022. There were no employee contributions during fiscal years 2022 and 2021. The employer contributions made during fiscal years 2022 and 2021 were \$78 and \$63, respectively.

(i) **Postemployment Benefits Other Than Pensions**

The College's retirees participate in the State Health Benefit State Retired Employees Plan (the Plan).

Plan Description, Including Benefits Provided

The Plan is a single-employer defined benefit other postemployment benefit (OPEB) plan, which provides medical, prescription drug, and Medicare Part B reimbursements to retirees and their covered dependents. Although the Plan is a single-employer plan, it is treated as a cost-sharing multiple employer plan for standalone reporting purposes. In accordance N.J.S.A. 52:14-17.32, the State is required to pay the premiums and periodic charges for OPEB of State employees who retire with 25 years or more of credited service, or on a disability pension, from one or more of the following pension plans: PERS, TPAF, ABP or PFRS. In addition, Chapter 302, P.L. 1996 provides that for purposes of this Plan, the College's employees retain any and all rights to the health benefits in the Plan, even though the College is considered autonomous from the State, therefore, its employees are classified as State employees. As such, the State is legally obligated for the benefit payments on behalf of the retirees of the College; therefore, the Plan meets the definition of a special funding situation as defined

Notes to the Financial Statements (\$ in thousands)

in GASB Statement No. 75, *Accounting and Financial Reporting for Other Postemployment Benefits Other Than Pensions* (GASB 75).

Retirees who are not eligible for employer-paid health coverage at retirement can continue in the program by paying the cost of the insurance for themselves and their covered dependents. Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage, who have less than 20 years of creditable service on June 28, 2011, will be required to pay a percentage of the cost of their healthcare coverage in retirement provided they retire with 25 years or more of pension service credit. The percentage of the premium for which the retiree will be responsible for will be determined based on the retiree's annual retirement benefit and level of coverage.

The Plan is administered on a pay-as-you-go-basis. Accordingly, no assets are accumulated in a qualifying trust that meets the definition of a trust as per GASB 75.

Total OPEB Liability and OPEB Expense

As of June 30, 2022 and 2021, the State recorded a liability of \$247,514 and \$285,593, respectively, which represents the portion of the State's total proportionate share of the collective total OPEB liability that is associated with the College (the College's share). The College's share was based on the ratio of its members to the total members of the Plan. At June 30, 2022 and 2021, respectively, the College's share was 3.64% and 0.99% and 3.57% and 1.01% of the special funding situation and of the Plan, respectively.

For the years ended June 30, 2022 and 2021, the College recognized OPEB expense of \$2,841 and \$5,006, respectively. As the State is legally obligated for benefit payments on behalf of the College, the College recognized revenue related to the support provided by the State of \$2,841 and \$5,006, respectively.

Actuarial Assumptions and Other Inputs

The State's liability associated with the College at June 30, 2022 was determined by an actuarial valuation as of June 30, 2020, which was rolled forward to the measurement date of June 30, 2021:

Actuarial Methods and Assumptions		
	2022	2021
Inflation rate	2.50%	2.50%
Projected salary increases:		
Initial fiscal year applied		
through	2026	2026
Rate	1.55%–15.25%	1.55%–15.25%
Thereafter	2.75%–7.00%	2.75%–7.00%
Discount rate	2.16%	2.21%

The discount rate is based on the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Salary increases

Notes to the Financial Statements (\$ in thousands)

depend on the pension plan a member is enrolled in. In addition, they are based on age or years of service.

The June 30, 2020 valuation used preretirement mortality rates based on the PUB-2010 Healthy “Teachers” (TPAF/ABP), “General” (PERS), and “Safety” (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the PUB-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the PUB-2010 “Safety” (PFRS), “Teachers” (TPAF/ABP), and “General” (PERS) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The June 30, 2019 valuation used preretirement mortality rates based on the PUB-2010 Healthy “Teachers” (TPAF/ABP), “General” (PERS), and “Safety” (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Postretirement mortality rates were based on the PUB-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020. Disability mortality was based on the PUB-2010 “Safety” (PFRS), “Teachers” (TPAF/ABP), and “General” (PERS) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2020.

Certain actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies of the State of New Jersey’s defined benefit plans. For June 30, 2020, this included PERS (July 1, 2014 through June 30, 2018), ABP/TPAF (using the experience of the TPAF – July 1, 2015 through June 30, 2018) and PFRS (July 1, 2013 through June 30, 2018).

Health Care Trend Assumptions

For the June 30, 2020 valuation, the trend rate is initially 5.65% and decreases to a 4.5% long-term trend rate after seven years for pre-Medicare medical benefits. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rate for fiscal year 2022 through 2023 are reflected. For PPO, the rate used for 2024 and 2025 respectively are 5.79% and 13.79%, trending to 4.5% after 11 years. For HMO, the rate used for 2024 and 2025 respectively are 5.98% and 15.49%, trending to 4.5% after 11 years. For prescription drug benefits, the initial trend rate is 6.75% and decreases to a 4.5% long-term trend rate after seven years.

For the June 30, 2019 valuation, the trend rate is initially 5.6% and decreases to a 4.5% long-term trend rate after seven years for pre-Medicare medical benefits. For post-65 medical benefits, the actual fully insured Medicare Advantage trend rate for fiscal year 2021 through 2022 are reflected. The rates used for 2023 and 2024 are 21.83% and 18.53%, respectively, trending to 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.0% and decreases to a 4.5% long-term trend rate after seven years.

Notes to the Financial Statements (\$ in thousands)

(13) Compensated Absences

Payments for accumulated sick leave balances are made to retiring employees upon regular retirement. The payment is based on 50% of the sick leave accumulation at the pay rate in effect at the time of retirement up to a maximum of \$15 per employee. Employees separating from College service prior to retirement are not entitled to payments for accumulated sick leave balances. Accordingly, the College recorded a liability for accumulated sick leave balances in the amount of \$459 and \$557 as of June 30, 2022 and 2021, respectively, which is reflected in compensated absences, noncurrent, in the accompanying financial statements.

The College is required to pay non-faculty employees for their accumulated vacation time upon their separation or retirement. The liability was \$4,592 and \$4,668, respectively, as of June 30, 2022 and 2021, and is reflected in compensated absences, current, in the accompanying financial statements.

The College is required to pay employees for their accumulated bank leave time upon their separation or retirement. As of June 30, 2022 and 2021, a liability of \$291 was included in compensated absences, current, in the accompanying financial statements.

(14) Contingencies

The College is a party to various pending legal actions and other claims in the normal course of business. Management of the College is of the opinion that the outcome thereof will not have a material effect on its financial position based on legal representation letters obtained from outside counsel.

(15) Government Relations and Legal Fees

The New Jersey Higher Education Restructuring Act of 1994 requires the College to disclose the costs incurred associated with government and public relations and legal costs. During the years ended June 30, 2022 and 2021, the College expended \$180 and \$43, for government and public relations, and \$117 and \$92, respectively, for legal fees.

(16) The College of New Jersey Foundation, Inc.

Component Unit

The College of New Jersey Foundation, Inc. (the Foundation) is a legally separate, tax-exempt component unit of the organization with a fiscal year end of June 30. The Foundation has received a determination letter from the Internal Revenue Service concluding that it is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Foundation acts primarily as a fundraising entity to supplement the resources that are available to the College in support of its programs. Although the College does not control the timing or amount of receipts from the Foundation, the Foundation's assets are used exclusively for the benefit, support, and promotion of the College and its educational activities. The Foundation meets the criteria to be discretely presented in the College's financial statements. Complete financial statements for the Foundation can be obtained from the Foundation at 2000 Pennington Road, Green Hall Room 214, Ewing, NJ 08628.

Investments

The Foundation has an investment policy which establishes guidelines for permissible investments. The primary investment objective is to preserve and increase the value of endowment funds and maximize the long-term total rate of return on all invested assets while assuming a level of risk consistent with prudent

Notes to the Financial Statements (\$ in thousands)

investment practices for such funds. The Foundation may invest in obligations of the U.S. Government, certificates of deposit, money market funds, equities and stock funds, bonds and bond funds, and alternative investments. Investments consist of the following as of June 30, 2022 and 2021:

Investments		
	2022	2021
Cash and cash equivalents	\$ 2,757	7,760
U.S. Treasury bills and notes	—	2,316
U.S. Government agencies	—	1,568
Corporate bonds	—	1,439
Equity securities	550	22,131
Mutual funds	50,557	19,006
Exchange-traded funds	317	4,604
Alternative investments:		
Private equity	—	925
Hedge funds	2,970	3,471
Real estate income trust	—	1,162
Common trust funds	867	1,029
	<u>\$ 58,018</u>	<u>65,411</u>

The Foundation's investments are subject to various risks. Among these risks are credit risk and interest rate risk. Each one of these risks is discussed in more detail below.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is measured by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's).

Within the Foundation's investment policy guidelines, the policy gives investment money managers and investment funds full responsibility for security selection, diversification, turnover and allocation of holdings among selected securities and industry groups.

The following are guidelines to be followed by the investment advisors in the selection of investment money managers:

- Domestic equities may be selected from the New York, American and Regional Stock Exchanges, or the NASDAQ markets. The cost of an individual security in the portfolio at purchase may not exceed 5% of the total market value of that portfolio. Individual securities held in a portfolio must not exceed 5% of the portfolio on a cost basis. Mutual funds and investment money managers are not to be included in this limitation.
- Only international managers experienced in trade on foreign exchanges shall handle investments in international equities.
- Managers may use a mutual fund as a means of participating in international equities, with prior approval of the Investment Committee.

Notes to the Financial Statements (\$ in thousands)

- Managers may invest in commercial paper, bankers' acceptances, repurchase agreements, U.S. Treasury bills, certificates of deposit, and money market funds to provide income, liquidity for expense payments, and preservation of the portfolio's principal value. All such assets must represent maturities of one year or less at the time of purchase.
- Commercial paper must be rated A-1 or P-1 by Standard & Poor's and Moody's, respectively.
- Bankers' acceptances and certificates of deposit should only be purchased from larger, well-capitalized domestic and foreign banks with a minimum of an A rating from one of the major rating agencies. Uninvested cash reserves should be kept to minimum levels. In any instance where the total funds on deposit with a financial institution exceeds the insurance coverage provided by the FDIC or FSLIC, collateral security or its equivalent shall be required.
- Fixed income investments will include U.S. Treasury and Federal agency debt obligations, corporate bonds, mortgages, asset backed securities and preferred stocks. By design, the managers should focus on fixed income securities of the highest quality, thereby reducing investment risk. With the exception of Federal Government issues, no single issue should exceed 4% and no industry group should exceed 10% of the aggregate fixed income portfolio without the Investment Committee's prior approval. The average credit quality of the fixed income or convertible portfolio should be rated investment grade or better. The average maturity of the fixed income portfolio may not exceed 12 years and the average duration of the fixed income portfolio should not exceed 10 years.

As of June 30, 2022, the Foundation was not invested in fixed income securities. As of June 30, 2021, the Foundation's fixed income investments, which consist of U.S. Treasury bills and notes, U.S. Government agencies, certificates of deposit, and corporate bonds, were rated as follows:

2021				
Fixed Income Investments Ratings				
Rating	Total	U.S. Treasury bills and notes	U.S. Government agencies	Corporate bonds
Aaa	\$ 3,917	2,316	1,568	33

Baa2	326	—	—	326
Total	\$ 5,323	2,316	1,568	1,439

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of a debt investment. The Foundation's investment policy provides limitations in the maturities of various types of

Notes to the Financial Statements (\$ in thousands)

investments. As of June 30, 2022, the Foundation was not invested in any fixed income securities. As of June 30, 2021, the Foundation's fixed income investments, which consist of U.S. Treasury bills and notes, U.S. Government agencies, certificates of deposit, and corporate bonds, had maturity dates as follows:

2021				
Fixed Income Investments Maturity				
Maturing in years	Total	U.S. Treasury bills and notes	U.S. Government agencies	Corporate bonds
1-5	\$ 1,463	843	46	574
6-10	1,340	557	73	710
Greater than 10	2,520	916	1,449	155
Total	\$ 5,323	2,316	1,568	1,439

Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the financial statements' measurement date. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1 – unadjusted quoted or published prices for identical assets or liabilities in active markets that a government can access at the measurement date;
- Level 2 – quoted or published prices other than those included within Level 1 and other inputs that are observable for an asset or liability, either directly or indirectly; and
- Level 3 – unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3. When the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level that is significant to the entire measurement.

While the Foundation believes its valuation, methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following is a description of the valuation methodologies used for instruments measured at fair value:

- U.S. Treasury bills and notes – The fair value of U.S. Treasury bills and notes are based on prices quoted in active markets for those securities.
- U.S. Government agencies – The fair value of government agencies are based on a multi-dimensional relational model. Standard inputs to the pricing model for the Level 2 debt securities include benchmark

Notes to the Financial Statements (\$ in thousands)

yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data.

- Corporate bonds – The fair value of corporate bonds are based on a multi-dimensional relational model. Standard inputs to the pricing methods for the Level 2 debt securities include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data.
- Equity securities – The fair value of equity securities is the market value based on quoted market prices, when available, or market prices provided by recognized broker-dealers. These investments are classified as Level 1. Equity securities classified in Level 2 of the fair value hierarchy are valued at quoted market prices in the over-the-counter (inactive) market. The price used as the fair value may be from a market transaction or a bid or ask price in the market that did not result in a transaction.
- Mutual funds – The fair value of mutual funds is the market value based on quoted market prices, when available, or market prices provided by recognized broker-dealers.
- Exchange-traded funds – The fair value of exchange-traded funds are based on the quoted market price on an active market as of the measurement date.
- Alternative investments – Alternative investments are valued using current estimates of net asset value obtained from the investment manager in the absence of readily determinable public market values. The estimated fair value of these investments is based on the most recent valuations provided by external investment managers. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed.
- Cash and cash equivalents – These investments are measured at amortized cost and have been excluded from fair value leveling.

Notes to the Financial Statements (\$ in thousands)

The Foundation's investments at June 30, 2022 and 2021 are summarized in the following table by their fair value hierarchy:

2022				
Investments Measured at Fair Value				
Investment	Total	Fair value measurements using		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
<i>Investments by fair value level</i>				
Equity securities	\$ 550	550	—	—
Mutual funds	50,557	50,557	—	—
Exchange-traded funds	317	317	—	—

Total investments measured at fair value	\$ 57,651			

The fair value as of June 30, 2022 and 2021 and redemption terms for investments measured at the net asset value (NAV) per share (or its equivalent) is presented in the following table:

2022			
Investments Measured at NAV			
Investment	Fair value	Redemption frequency (if currently eligible)	Redemption notice period
Hedge funds	\$ 2,970	Quarterly	95 days
Common trust funds	867	N/A	N/A
Total investments measured at NAV	\$ 3,837		

Notes to the Financial Statements (\$ in thousands)

2021			
Investments Measured at NAV			
Investment	Fair value	Redemption frequency (if currently eligible)	Redemption notice period
Private equity	\$ 925	Quarterly	65 days
Hedge funds	3,471	Quarterly	30 - 96 days
Real estate income trust	1,162	Monthly	Second to last business day of the month
Common trust funds	1,029	N/A	N/A
Total investments measured at NAV	\$ 6,587		

As of June 30, 2022 and 2021, the Foundation had no unfunded commitments for investments measured at NAV.

The investment strategy, valuation method and redemption terms for the investments measured as NAV are discussed below.

Private equity: This type was an investment in one multi strategy private equity fund that invests in direct, secondary and primary private equity investments across a range of geographic markets, investment types and vintage years. The objective of the fund is to generate returns by systematically overweighting the vehicles, segments and opportunities it believes offer the best relative value at a point in time. Redemptions may be requested quarterly by tender offer with 65 days' notice. The fund's board of managers has the sole discretion to repurchase units from a tender offer due to the illiquid nature of the fund. The fund limits the redemptions each quarter to no more than 5% of the fund's net asset value. The fair value of the investment in this type was determined using the NAV per share (or its equivalent) of the investment. This investment was sold during fiscal year 2022.

Hedge funds: This type consisted of investments in three funds as of June 30, 2021 and one fund as of June 30, 2022 that employ a variety of alternative investment strategies including multi strategy equity, relative value, and multi strategy funds of funds. Redemption terms vary by fund. Redemptions could be requested quarterly with 30 – 96 calendar days' notice depending on the fund for the three funds held as of June 30, 2021. None of these three funds had active lockup periods. One fund's board of directors has the sole discretion to repurchase units with a tender offer. This fund limits the redemptions each quarter to 5 25% of the fund's NAV.

The fund held as of June 30, 2022 may be redeemed semi-annually based on the investment anniversary date with at least 95 days subject to a one-year soft lock up which expires in February 2023. The fair value of the investments in this type has been determined using the NAV per share (or its equivalent) of the investment. The three funds held as of June 30, 2021 were sold during fiscal year 2022 and the one fund held as of June 30, 2022 was purchased during fiscal year 2022.

Real estate income trust: This type was an investment in one fund that acquires stabilized, income-oriented commercial real estate in the United States, such as multi-family, industrial, hotel and retail properties, and real estate-related securities. Redemptions may be requested monthly by the second to last business day

Notes to the Financial Statements (\$ in thousands)

of each month. The fund's board of directors has the sole discretion to accept repurchase requests. Repurchases of shares outstanding for one year or less will be repurchased at 95% of the prior month's NAV. Aggregate repurchases are limited to no more than 2% of the fund's aggregate NAV per month and no more than 5% of the fund's aggregate NAV per calendar quarter. The fair value of the investment in this type was determined using the NAV per share (or its equivalent) of the investment. This investment was sold during fiscal year 2022.

Common trust funds: This type consists of investments in eleven common trust funds that invest in a variety of debt and equity strategies including small- and mid-cap growth and value, small-, mid-, and large-cap core, emerging markets, international equities, dividend income, and aggregate bonds. These funds are held within an irrevocable trust of which the Foundation is a beneficiary. The investments in these common trust funds cannot be redeemed. The Foundation is currently receiving income earned on the investments. Distributions from the liquidation of the underlying assets are unknown at this time. The fair value of the investment in this type has been determined using the NAV per share (or its equivalent) of the investment.

(17) Trenton State College Corporation

Component Unit

The Trenton State College Corporation (the Corporation or TSCC) is a legally separate, tax-exempt component unit of the organization with a fiscal year end of June 30. The Corporation is qualified under Section 115 of the Internal Revenue Code as an organization exempt from Federal income taxes by its relationship with the College and the State of New Jersey. The Corporation assists in the development and growth of the College through property acquisitions and facilities management. The Corporation meets the criteria to be discretely presented in the College's financial statements. Complete financial statements for the Corporation can be obtained from the Corporation at 54 Carlton Avenue, Ewing Township, NJ 08618.

Notes to the Financial Statements (\$ in thousands)

Capital Assets

Capital asset activity for the Corporation for years ended June 30, 2022 and 2021 was as follows:

2022				
Capital Assets				
2022	Beginning balance	Additions	Property sold/ transferred	Ending balance

Total capital assets, net				7,029

The Corporation entered into a ten year service management agreement dated April 4, 2014 with Barnes & Noble to manage and operate a hybrid campus and general interest retail bookstore in the space leased by the Corporation in the Campus Town development. The bookstore service management agreement has one option to renew the agreement for an additional five year term. The agreement term began on the Bookstore Services Commencement Date (August 3, 2015) as defined by the agreement.

Beginning on the Bookstore Services Commencement Date, Barnes & Noble will pay the Corporation a minimum annual guaranteed commission of \$650 with additional commission paid based on the specified percentages of gross sales in accordance with the agreement terms. If annual gross sales of the Bookstore shall materially decline as a result of declining enrollment, public legislation, other conflicting campus agreements, material changes in school policies or business module of the industry, such as digital books, sales directly from the publisher, or other reasons outside control of Contractor, the Corporation agrees to negotiate in good faith with Barnes & Noble an appropriate reduction in the payments set forth in the agreement. In fiscal year 2021, the annual gross sales of the bookstore materially declined due to the impact of the COVID 19 pandemic and as a result the Corporation modified the agreement with Barnes & Noble to eliminate the minimum annual guaranteed commission for fiscal year 2021 and instituted a commission

Notes to the Financial Statements (\$ in thousands)

arrangement based on a specified percentage of gross sales. In fiscal year 2022, the agreement was renegotiated with Barnes & Noble to reinstate the minimum annual guaranteed commission of \$650. The total commission payments the Corporation received in fiscal year 2022 was \$650, an increase of \$299 from fiscal year 2021 which totaled \$351.

After the Corporation pays the space rental payments to the landlord and other operational costs, excess commission, if any will be transferred to the College. In fiscal year 2022, there was \$196 of excess commission to be transferred to the College from the fiscal year 2022 operations. The fiscal year 2022 surplus was offset by \$137 of bookstore operating deficit from the fiscal year 2021 operations that was recognized in fiscal year 2022 as transactions with affiliates. The fiscal year 2022 excess commission of \$196 was due from the Corporation to the College as of June 30, 2022.

(18) Risk Management

The College is exposed to various risks of loss. The College purchases and funds property and casualty insurances through the NJRM joint insurance program with the nine State of New Jersey Public Colleges and Universities. The College's risk management program involves insurance for all property risk in the joint insurance program and all liability risk and employee benefit exposures are self-funded programs maintained and administered by the State of New Jersey (including tort liability, auto liability, trustees and officers liability, workers' compensation, unemployment, temporary and long-term disability, unemployment liability, life insurance and employee retirement programs).

Subject to policy conditions, exclusions, and limits, buildings, plants, and equipment and lost revenue are fully insured on an all risk replacement basis to the extent that losses exceed \$1,000 per occurrence with a per occurrence limit of \$2,000. Commercial crime insurance coverage provides money and securities coverage for an actual loss in excess of \$150 with a per loss limit of \$5,000. In addition to the insurance purchased and maintained through the consortium, the College maintains two additional policies. The first is a student blanket professional liability insurance policy with a limit of \$2,000 per claim and a \$5,000 aggregate. The second is a museum collection and temporary loans policy with a \$500 limit.

As an instrumentality of the State of New Jersey the liability of the College is subject to all of the provisions of the New Jersey Tort Claims Act (NJSA 59:1-1 et seq.), the New Jersey Contractual Liability Act (NJSA 59:13-1 et seq.), and the availability of appropriations. The Tort Claims Act also creates a fund and provides for payment of claims under the Act against the State of New Jersey or against its employees for which the State of New Jersey is obligated to indemnify against tort claims, which arise out of the performance of their duties.

All insurance policies are renewed on an annual basis. All of the State of New Jersey self-funded programs are statutory with an annual appropriation provided by the legislature. There has been no decrease in insurance coverage during the current year.

Notes to the Financial Statements (\$ in thousands)

(19) Impact of COVID-19

In fiscal year 2022, the College accepted federal emergency relief funds from the Higher Education Emergency Relief Fund (HEERF), and the Federal Emergency Relief Agency (FEMA) to offset institutional losses and provide student grants. The table below illustrates the revenue recognized from the COVID-19 stimulus funds in fiscal year 2022 which are reported as nonoperating revenues:

2022			
COVID-19 Stimulus Funding			
	Student Grant	Institutional	Total
HEERF II	1,000	1,000	2,000
HEERF III	5,393	5,393	10,786
FEMA	—	2,256	2,256
Total	\$ 6,393	8,649	15,042

2021			
COVID-19 Stimulus Funding			
	Student Grants	Institutional	Total
HEERF I	\$ 74	74	148
HEERF II	1,514	3,786	5,300
GEERF	—	1,878	1,878
CRF I	—	4,298	4,298
CRF II	—	1,906	1,906
Total	\$ 1,588	11,942	13,530

(20) Subsequent Events

Management evaluated events subsequent to June 30, 2022 and through March 8, 2023, the date on which the financial statements were issued. Management has determined that there are no subsequent events that would require adjustment or disclosure in the financial statements.

The College of New Jersey
Schedule of Proportionate Share of the Total Other Postemployment Benefits (OPEB) Liability
(Unaudited)
June 30, 2022
(In thousands)

State Health Benefit State Retired Employees Plan

	2022	2021	2020	2019	2018
College proportion of the collective total OPEB liability	0.000%	0.000%	0.000%	0.000%	0.000%
College proportionate share of the collective OPEB liability	\$ —	—	—	—	—
State's proportionate share of the collective OPEB liability associated with the College	247,514	285,593	186,302	296,779	289,555
Total proportionate share of the collective OPEB liability	<u>247,514</u>	<u>285,593</u>	<u>186,302</u>	<u>296,779</u>	<u>289,555</u>
College covered-employee payroll (for the year ended as of the measurement date)	86,905	87,512	90,895	108,347	77,708
College proportionate share of the collective OPEB liability as a percentage of the employee covered-payroll	0.000%	0.000%	0.000%	0.000%	0.000%

Notes:

- Information provided for Required Supplementary Information will be provided for ten years as the information becomes available in subsequent years.
- For the State Health Benefit State Retired Employees Plan, there are no assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for Other Postemployment Benefits Other Than Pensions*.
- Changes in assumptions – There were no significant changes in assumptions except for the annual change in the discount rate.
For fiscal year 2022, the discount rate changed to 2.16% from 2.21%. The mortality tables utilized Pub-2010 and Scale MP-2021.
For fiscal year 2021, the discount rate changed to 2.21% from 3.50%. The mortality tables utilized Pub-2010 and Scale MP-2020.
For fiscal year 2020, the discount rate changed to 3.50% from 3.87%. The mortality tables utilized changed from RP 2000 in 2018 to Pub-2010 in 2019.
For fiscal year 2019, the discount rate changed to 3.87% from 3.58%.

See accompanying independent auditors' report.

Schedule of Expenditures of Federal Awards
Year ended June 30, 2022

Federal grantor/pass-through grantor/ program or cluster title	ALN	Pass-through grant award number	Current year expenditures	Amount provided to subrecipients
Student Financial Assistance Cluster:				
U.S. Department of Health and Human Services: Nursing Student Loans (note 2)	93.364	—	\$ 202,955	—
Total U.S. Department of Health and Human Services			202,955	—
U.S. Department of Education: Federal Supplemental Educational Opportunity Grants	84.007	—	385,035	—
Federal Work-Study Program	84.033	—	24,163	—
Federal Perkins Loan (FPL) - Federal Capital Contributions (note 2)	84.038	—	2,046,893	—
Federal Pell Grant Program	84.063	—	6,887,064	—
Federal Direct Student Loans (note 3)	84.268	—	31,453,325	—
Teacher Education Assistance for College and Higher Education Grants (TEACH Grants)	84.379	—	54,696	—
Total U.S. Department of Education			40,851,176	—

Notes to the Schedules of Expenditures of Federal and State of New Jersey Awards

Year Ended June 30, 2022

(1) Basis of Presentation

The accompanying schedules of expenditures of Federal and State of New Jersey awards include the Federal and State of New Jersey grant activity of The College of New Jersey (the College) and are presented on the accrual basis of accounting. The information in these schedules is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and New Jersey Office of Management and Budget Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the 2022 basic financial statements.

(2) Federal Perkins Loan and Nursing Student Loan Programs

The College administers and accounts for certain aspects of the Federal Perkins Loan and Nursing Student Loan programs. The balance of loans outstanding under these programs as of June 30, 2022 are as follows:

Year Ended June 30, 2022		
	Federal Perkins Loan Program	Nursing Student Loan Program
Beginning balance	\$ 2,046,893	193,055
New loans issued	—	9,900
Payments	(489,646)	(64,754)
Adjustments	—	—
Cancellations	(24,095)	—
Ending balance	\$ 1,533,152	138,201

(3) Federal Direct Student Loans

The College is responsible only for the performance of certain administrative duties with respect to the Federal Direct Student Loans program and, accordingly, these loans are not included in the College's basic financial statements. It is not practical to determine the balance of loans outstanding to students of the College under this program as of June 30, 2022.

(4) Indirect Costs

For the year ended June 30, 2022, the College did not elect to use the 10% de minimis indirect cost rate.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Board of Trustees
The College of New Jersey:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, fiduciary activities, and the aggregate discretely presented component units of The College of New Jersey (the College), a component unit of the State of New Jersey, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated March 8, 2023. The financial statements of The College of New Jersey Foundation, Inc. and the Trenton State College Corporation were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with The College of New Jersey Foundation, Inc. or the Trenton State College Corporation.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditors' Report on Compliance for Each Major Federal and State of New Jersey Program;
Report on Internal Control Over Compliance; and Report on Schedules of Expenditures of Federal and
State of New Jersey Awards Required by the Uniform Guidance and New Jersey OMB Circular 15-08**

The Board of Trustees
The College of New Jersey:

Report on Compliance for Each Major Federal and State of New Jersey Program

We have audited The College of New Jersey's (the College) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* and the *New Jersey Office of Management and Budget* (New Jersey OMB) *State Grant Compliance Supplement* (the Compliance Supplements) that could have a direct and material effect on each of the College's major Federal and State of New Jersey programs for the year ended June 30, 2022. The College's major Federal and State of New Jersey programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the College complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal and State of New Jersey programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal and State of New Jersey Program

We conducted our audits of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid* (New Jersey OMB Circular 15-08). Our responsibilities under those standards, the Uniform Guidance and New Jersey OMB Circular 15-08 are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major Federal and State of New Jersey program. Our audits do not provide a legal determination of the College's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the College's Federal and State of New Jersey programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the College's compliance based on our audits. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and New Jersey OMB Circular 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the College's compliance with the requirements of each major Federal and State of New Jersey program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance and New Jersey OMB Circular 15-08, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the College's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the College's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audits.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal or State of New Jersey program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal or State of New Jersey Program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal or State of New Jersey program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audits we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audits were not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

Report on Schedules of Expenditures of Federal and State of New Jersey Awards Required by the Uniform Guidance and New Jersey OMB Circular 15-08

We have audited the financial statements of the business-type, fiduciary activities, and the aggregate discretely presented component units of the College or New Jersey as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated March 8, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedules of expenditures of Federal and State of New Jersey awards is presented for purposes of additional analysis as required by the Uniform Guidance and New Jersey OMB Circular 15-08 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedules of expenditures of Federal and State of New Jersey awards are fairly stated in all material respects in relation to the basic financial statements as a whole.
